A NECKLACE

Is the first ornament of which there is any record. An endless variety of Necklaces are now very fashionable, although by no means equally so. Those most in vogue this season are of gold or platinum set with precious or semi-precious stones with catenary curves and pendants attached to the master-chain, long in front and shortened to the chain itself at the back. We have now an immense stock of Necklets, charming creations in art finish of gold and platinum; terminale and pearl; apua marine and pearl; peridot and pearl; diamonds and pearl, etc. The majority of these are suitable to hang a fine diamond, pearl or enamel pendant upon.

Prices for Diamond Necklets soar as high as \$4000, but we have many lovely designs at very modest prices.

Challoner and Mitchell.

Silence is Golden

Why does the finest Champagne ever imported into this country resemble silence?
Because it is golden—good as gold, and because it is MUMM.

Remember, "MUMM'S" the word when you want the best.

The most critical palates and most sensitive digestions can use this peerless Champagne without any fear of unpleasant after effects.

When Royal banquets, important public functions, and connoisseurs' exacting tastes are taken into consideration, the endorsement is still stronger, as practically no other Champagne is used other than G. H. Mumm & Co.'s.

On the wine-lists of all first-class hotels, bars, clubs and restaurants.

RED DEER PEOPLE HEAR MR. BORDEN

Representative Audience of Alberta District Gives Him Encouragement

ADDRESS WELL RECEIVED

Meeting a Good Indication of Hearty Support in Western Provinces

Red Deer, Alta., Oct. 7.—About six hundred people filled the large Massey-Harris warehouse here tonight to hear R. L. Borden, the leader of the opposition in the House of Commons. The hall was filled early, and when the evening trains came in, large crowds from Olds, Didsbury, Innisfail, Lacombe and other small towns arrived. The hall was filled to overflowing.

At eight o'clock Dr. J. Collinson conducted Mr. Borden, amidst hearty cheers, to the platform, where the following local Conservatives were seated: M. S. McCarthy, M.P.; J. G. H. Bergeron, M.P.; Mr. McDonald, of Olds; J. A. Jackson, Ponoka; Mr. Gilmore, Lacombe; Mr. McDonald, Calgary; Geo. F. Root, Mr. Cockshutt, M.P.

Around the hall were large streamers bearing words of welcome and planks of the Conservative platform, some of which were: "Welcome to our guest," "Borden a man for the people," "The old flag and the old party," "The same measure of self-government as the other provinces in ownership of our timber and crown lands," "Improved postal facilities," "Honest expenditure of public money," "Abolition of party patronage."

The president of the Red Deer Conservative association, Dr. John Collinson, first called upon Mayor P. P. Gaetz, of Red Deer, to make the opening speech. Mr. Gaetz, in a few choice remarks, expressed his great delight at welcoming Mr. Borden to the town. He was glad to see the large mixed audience present, and that there were so many Liberals present.

Geo. F. Root, of Eyskine, one of the most prominent cattlemen in Alberta, and who was a resident of the United States until four years ago, but is now one of our most loyal citizens, was next called on. Mr. Root spoke of the present position of Canada, which makes it necessary for the people to take cattle, etc., to the United States in order to get right prices. This was, he said, caused by the present government.

Mr. McCarthy, M.P., for Calgary, next addressed the audience for a few minutes. He said that it gave him great pleasure to be present at this meeting. He was pleased to see so many ladies present, as he was sure they would have a great deal to do with victory at the next election. He was also very glad to see the good electors of Olds and Didsbury with their leader, Mr. Hiebert, and he hoped those present would give Mr. Borden a careful hearing and when the next election was held Mr. Borden and his party should be put in charge of the government of Canada.

Amidst hearty cheers Mr. Borden took the platform, and for one hour reviewed the platform of the Conservative party. He spoke of the great use of the railway commission since his last trip through this country in 1902. He was also glad to see this large mixed audience, and he was always glad to see the ladies interested, for when they are they do a great deal towards victory. He spoke of the great hospitality of this western country, and he was sure it was being abused. He spoke briefly of the great use of the railway commission, but said that it should be recognized, and that its membership should be doubled. It should have full control over all questions relating to companies and corporations. He also spoke on the great improvement needed in the civil service of the country, and that it should not be the play of parties, and that they should have nothing to do with it, but that the engaged in it should be chosen on their merits only. He also dealt with the need of better postal facilities and the great need of free delivery in this country. Mr. Borden repeated his exposures of the Liberal failure to guard the public interests, and his convincing arguments in favor of a change of government.

J. G. H. Bergeron, M. P., addressed the meeting for a short time on the breaches of trust of which the Liberal government had been guilty. He promised they had made previous to the election of 1896, and of the poor way, in his idea, that they had kept them. He gave many illustrations of the graft they had carried on, and he hoped that the people of Canada would see as plainly as he did and show their knowledge by putting into power the Conservatives at the next election.

Mr. Cockshutt, M. P., for Brantford, spoke for a few minutes on the great need for better postal facilities in Canada, and he was sure that the policy of Mr. Borden and his party was the one needed for the country. He expressed his great pleasure at being present and the privilege of saying a few words.

The meeting closed with cheers for Mr. Borden and singing "God Save the King."

Killed By Flywheel.
Dubuc, Sask., Oct. 7.—Albert Tollefson, who lived two miles north of here, was killed today by being struck by the flywheel of a threshing engine.

Marketing of Grain.
Winnipeg, Oct. 7.—Grain receipts at C.P.R. points on Saturday amounted to 268,000 bushels, 258,000 bushels of which was wheat. The total grain receipts to date this season have amounted to 2,648,000 bushels of wheat and 220,000 bushels of other grain.

OUTRAGES ON JEWS.

"Black Hundreds" in Odessa Make Brutal Attacks.

Odessa, Oct. 7.—The unionists of Odessa continued today their attacks and outrages upon the Jews. They began by surrounding the Hebrew cemetery, where a funeral service was going on. First they stoned and then they fired a volley of revolver shots at the mourning Jews, many of whom were wounded. The Jews fled in panic. Later in the day members of the Black Hundred divided themselves into small groups, and ransacking several Jewish shops mercilessly beat the proprietors. A police sergeant who attempted to intervene was brutally attacked, whereupon he drew his revolver and killed one of his assailants. There were fewer police than usual on the streets today. After further Jew-baiting, detachments of Cossacks arrived on the scene, but instead of pursuing the Black Hundred, they laughed at the rapidity with which they made their escape. Up to the present time Governor General Nokol'ski had made no attempt to stop the outrages, but nevertheless they are diminishing gradually.

Britain's Trade.
London, Oct. 7.—The September statement of the board of trade shows increases of \$1,407,000 in imports and \$23,156,000 in exports. The principal increases in exports were coal, \$5,000,000, and manufactured goods, \$15,000,000, of which textiles totalled \$5,000,000.

TO LOOSEN UP MONEY STRINGS

Winnipeg Real Estate Men to Meet for Consideration of Ways and Means

Winnipeg, Oct. 7.—The ever-recurring question of "tight money" will receive further attention, and probably some practical application, at the special meeting of the Winnipeg Real Estate exchange, to be held next Thursday afternoon.

It received no slight incentive by an interview with Hon. Robert Rogers on financial conditions, and the duty of parliament to pass laws preventing the loaning of Canadian savings accounts to Wall Street.

Mr. Rogers showed where every branch of business, commercial, agricultural and real estate has been seriously affected by what he terms the unfairness of the banks in clipping legitimate business enterprise in Canada, while there is \$50,000,000 to \$70,000,000 of Canadian money on call loans in New York.

The president of the Winnipeg Real Estate exchange will call next Thursday's meeting with the object of devising ways and means to establish some independent source from which money can be borrowed without being at the mercy of a bankers' combine, which refuses to lend money on good local securities at a fair rate of interest, while sending away, not only their own capital but the deposits of customers and savings accounts, that rightfully should be retained here by local business. The real estate men are particularly incensed over the situation. They are desirous of speedy action, but individually for the most part are averse to expressing a public opinion that may arouse antipathy among cash bankers, with whom it is more or less necessary to deal in real estate transactions.

Real estate deals claim there is millions of western Canada money loaned to New York people, which they claim is against the interest of Canada.

Hon. Robert Rogers, in the interview on his return from eastern Canada, said: "I think it is the business of the parliament of Canada to find the remedy. In the meantime many thoughtful business men are inclining to the belief that the time has come when we should formulate some sound financial scheme providing a method for the establishment of local independent banks, more particularly for this western country, where, under local management, and having local capital and local interests alone, a more generous policy could be maintained than the danger of local interests suffering at the whim of an outside holder, who would be largely avoided. As business is conducted at present, the western deposits, which represent western savings, are being sent away out of the country altogether, whereas, with purely local institutions, there should be plenty of money available for all legitimate purposes."

TEMPESTUOUS VOYAGE.

American Liner St. Paul Encounters Severe Weather.

Southampton, Oct. 7.—The American liner St. Paul, which left New York September 27, steamed into this harbor today 24 hours late. Her voyage is described as having been most trying. She encountered severe gales, mountainous seas, and her hull with great violence and waves washed her deck. She ran into dense fogs, and Chief Officer Osborne, who commanded owing to the indisposition of Captain Passow, had to grope his way to Plymouth by means of the lead. When the fog finally lifted the steamer was in Plymouth Sound.

The White Star company have intimated to the Southampton authorities that an increased depth of water is required for vessels larger than the Adriatic.

Tied to the Track.
Cleveland, Oct. 7.—Bound hand and foot on the Pennsylvania railway here, Samuel Hamilton Shaw, a sailor of Port Huron, Mich., narrowly escaped being ground to death by a freight train early today. Shaw was robbed by three men, who, after knocking him senseless, bound him tightly to the track. He was discovered by the engineer of the train, who barely had time to stop the train within a few feet of him.

EXCLUSION TALK AT VANCOUVER

Speakers at Meeting Urge Abrogation of Treaty With Japan

NATAL ACT ALSO WANTED

Sending of Commission Spoken of as Only Causing Needless Delay

Vancouver, Oct. 7.—At a mass meeting of the anti-Asiatic league tonight speeches were made by W. W. B. McInnes, G. H. Cowan, J. D. Taylor of New Westminster, Rev. Dr. Fraser, and other local speakers.

Mr. McInnes denounced the treaty with Japan, showing that Canada's export trade to that country had decreased since it had been in force, and he called on the Dominion government to have it abrogated. Messrs. Cowan and Taylor spoke along the same line.

At the end of the meeting a resolution was passed commending the trades and labor congress at Winnipeg and the provincial Liberal convention for their action, and calling on the provincial government to at once call a session of the legislature and have the Natal act re-passed.

The meeting also protested against sending a commission to Japan, as likely only to delay the settlement of the question.

Fred Hindlip, who has been shooting near Telegraph creek, returned here today. He states that game in that part is being exterminated by Indians, and the government should take some measures to prevent it.

WONDERFUL FEAT OF THE WIRELESS

Marconi Station in Cape Breton Picks Up Message From Manila

Sydney, N. S., Oct. 7.—This morning while Marconi experts were testing the new receiving cones at the top of the towers of the station at Morien, the operators below picked up the wireless station at Manila, Philippine Islands. The message received was that the American cruiser Philadelphia had arrived there safely. The Marconi people account for the communication with Manila by the theory that the cone at Manila must have been in perfect tune with that at Morien. The best previous record for distance was 4,000 miles, between Savannah and a warship in the South Pacific.

The message from Manila was picked up while being sent to some other station on the Pacific or to a war vessel. The message was recorded by an operator in the receiving room at the Marconi station at the time the experts were experimenting in an effort to receive messages from Ireland.

They had received several messages from the Irish station and were in the act of making further tests when the instruments recorded the arrival of the Philadelphia at Manila.

The Marconi people say that no mistake was made, and the message was undoubtedly sent by the Manila station, which is about 12,000 miles distant, and that as a result experiments with stations in the east will shortly be attempted.

Port Morien, where the Marconi station is located, is the most easterly town in Cape Breton. It is 25 miles east of Sydney.

DENIAL FROM MR. BORDEN.

False Story of Resolution Being Presented to Him.

Calgary, Oct. 7.—In yesterday's Calgary papers appeared a copy of a resolution said to have been presented to Mr. Borden by the Conservatives of Manitoba at the Royal Alexandra hotel. To a western Associated Press representative Mr. Borden made the following explicit denial: "I never saw or heard of any resolution, nor was it read to me. The first I knew of this was when you brought it to my attention. I did have an interview with representatives of the Conservative clubs and associations at Winnipeg, but that interview was of the most cordial and satisfactory character."

C.P.R. TELEGRAPHERS.

Reported Failure of the Attempt to Arbitrate.

Toronto, Oct. 7.—The board of arbitration appointed to investigate the questions in dispute between the Canadian Pacific railway and its telegraphers, which sat in Montreal last week, have failed to agree, according to reports here.

Ottawa, Oct. 7.—The labor department has no definite information with regard to the conclusion of negotiations now in progress for a settlement of the dispute between the C.P.R. and its operators, but hopes that a satisfactory solution of the problem may yet be reached.

STANDARD WON IN ALL DIRECTIONS

Compelled Railways to Buy Its Lubricating Oil at Higher Prices

New York, Oct. 7.—Testimony that railroads purchased their lubricating oils from the Standard Oil company at prices higher than those of its competitors was heard today.

Phillip Harrison, manager of the N. Y. Lubricating Oil Co., which was engaged in a long strife with the Standard Oil company in the lubricating oil industry, was on the witness stand all day, and testified that although the products of his company had proven satisfactory to the railroads and were sold at prices under the Standard's figures, the railroads declined to renew their contracts with the New York Lubricating Oil company. Mr. Harrison said he was never openly told by the railroad officials why the contracts were not entered into again but he had a well defined idea of the cause.

The New York Lubricating Oil company entered into a contract in 1903 to supply the Louisville and Nashville railway for a period of two years, said Mr. Harrison, and six months before the contract expired President Milton Smith, of the railroad, informed the oil company that it need not endeavor to obtain a renewal of the contract.

Mr. Harrison testified that he had informed President Smith that if he was permitted to bid for the business he was prepared to reduce the price of engine oil from the current contract price, notwithstanding the fact that President Smith had praised the quality of the oil, and that it was offered at a lower price than that asked by the Standard. Mr. Harrison said, the Louisville and Nashville railway entered into a contract with the Galena Signal Oil company, a subsidiary of the oil combine.

Mr. Kellogg, counsel for the government, showed the witness a contract entered into by the Louisville and Nashville railway and the Galena company after the railroad's contract with the New York Lubricating Co. had expired, and Mr. Harrison said that the figures showed that the railroad paid \$30 a year more for its oil to the Standard than it would have paid under a contract with the New York company.

Mr. Harrison testified that the Central Railway of Georgia had purchased its oil from his company, and that it had been satisfactory. The Standard obtained the business, the witness said, notwithstanding the fact that the oil combine charged a higher price than the New York Lubricating Oil company.

An adjournment was taken until tomorrow.

ACAJUTLA CAPTURED

Central American Republics Have Another Little War

San Francisco, Oct. 7.—The Pacific Mail steamer San Jose, from Panama and way stations, arrived in this port this morning and brought word of the capture of the Port of Acajutla, in the latter part of September, by the Honduran land forces after a battle with the army of Salvador.

The attack upon Acajutla is said to have been well planned, and to have taken place during the absence of the U. S. gunboat Albatross, which and her crew looked after American interests on the southern coast. At the departure of the San Jose for San Francisco the full details of the battle had not been received. At Corinto the San Jose's manifest was examined by Nicaraguan government officials, after which she was allowed to proceed. Three months ago Acajutla was charged by the Nicaraguans. The gunboat Momotombo shelled the place and drove the governor to surrender. Since that time further trouble has been expected. Those on the San Jose heard little talk of revolution on the trip south until Acajutla was reached. Here reports that a naval conflict was expected and that attempts were being made to protect the port were received. It was not until the San Jose reached Acapulco that it was learned that Acajutla had fallen. Then the first word received came in the form of a rumor that a gunboat had stormed the fort. Later advice which reached those on board the steamer were that the port had been taken by a land force and the victorious army was proceeding northward.

EMPIRE'S BARD ARRIVES TODAY

Rudyard Kipling Will Remain Two Days in Victoria

ADDRESSES CANADIAN CLUB

Had Magnificent Reception in Vancouver—His Life and Works

Rudyard Kipling, empire builder, poet, writer and high priest of imperialism, will arrive in Victoria today from Vancouver. With Mrs. Kipling, he will spend two days in this city, returning east on Thursday. Rooms have been reserved at the Driand hotel.

Tomorrow Mr. Kipling will be the guest of the local Canadian club at luncheon in the A. O. U. W. hall. Paid-up members of the club will be permitted to attend, but each member may secure two additional tickets, which will entitle ladies to seats in the balcony for the speeches at the end of the luncheon.

At Vancouver yesterday Mr. Kipling received a magnificent ovation at the Canadian club luncheon. Pender hall was packed to the doors, and there were many ladies in the gallery. When Mr. Kipling entered the crowd rose to their feet and cheered.

Mr. Kipling's speech was witty and characteristic. In referring to Vancouver he pictured an army pouring through a mountain pass, the vanguard moving on and becoming lost in the great landscape, searching for food, transportation and shelter, and he illustrated the immigration from the east by this simile. He continued:

"If I had not as great a faith as I have in our breed and in our race I would tremble at your responsibilities, but I believe you who have come through the mountain passes already, as I believe in the great throng that is on its way through the mountain passes, here a fertilizing stream that no power can check, though they may strive for a little time to delay it."

"You have a rightful pride in your city; my pride is in your destiny. The head of this great army has scarcely emerged through the passes; in a short time it must come through in a flood. It is you, gentlemen who are responsible for the handling of that army, not the Dominion, but the province. You will see that great army corps coming in with their wives and children looking for homes, and perhaps it is worth while to remember that the state depends on the family and the family on the women, and the women on home."

"I beg you to believe that if I have not touched on certain problems it is not because I underrate the importance of the problems which confront you. I have lived too long among men overwhelmed by problems darker than those which confront you; I have seen them borne down by these problems, but I have never known them to be overcome by them."

"Let us order our affairs that our children and our children's children may say, 'Our fathers secured us a goodly heritage,' and bless our memory. Than this there is no higher reward for a nation."

The speech was greeted with tremendous enthusiasm, the crowd rising to their feet and singing "He's a Jolly Good Fellow."

Was Here Before

Mr. Kipling has not visited this city for fifteen years. Then he was comparatively unknown save in India. Today he is the best known of living writers. For he is the dominant figure and force in current English literature. He has passed successfully through the preliminary stages of uncritical popularity to receive the most careful critical consideration as story-teller and poet. He has brought a new and striking personality into the literature of the day. With a splendid vigor, breadth and directness he has given literary expression to entirely fresh and interesting phases of the life in wide regions of the English-speaking peoples; and he has with a noble realism proved in his work the possibility, to genius, of using the practical rushing contemporary period—with its machinery, science-worship and struggle for place—as rich material for imaginative treatment in literature. In a fairly epic way he has constituted himself, in song and story, the chronicler and minstrel of the far-scattered colonial English.

His Early Life

Kipling's birth, education and early experience were such as to qualify him for his elected work in the world. He was born in Christmas week, 1865, in Bombay, a city he has celebrated in verse:

"A thousand mills roar through me where I glean
All races from all lands."

After studying at the United Service college, Westward Ho, North Devon, he returned to India in 1882 as editor of the Lahore Civil and Military Gazette, and was for some time special correspondent on the frontier in Rajputana, and elsewhere, for that paper and for the Allahabad Pioneer. He left India in 1889, and went to England after visiting China, Japan, Africa, Australia and the United States. For several years he resided at Brattleboro, Vt., but later returned to England, and lived at Rottingdean, Sussex.

His First Writings

He first made himself known to the restricted circle of English readers by a volume entitled "Departmental Ditties," in 1886, in which he dealt with the salient features of Anglo-Indian life with directness, insight, metrical facility. An enlarged edition appeared in 1890. The Indian stories, too, "Plain Tales from the Hills" (1888),

(Continued on Page Eleven)

DINNEFORD'S MAGNESIA

COUNCIL INSISTS ON ITS DEMAND

No Permit for Coffin Island Warehouse Unless Bond is Given

Once again the request of F. C. Winkler for a permit to be allowed to erect an oil warehouse on Coffin Island, which he has purchased, was presented to the city council at the regular meeting last night. This is the third time that Mr. Winkler has asked for the permit. The first time the permit was refused by the building inspector on the ground that the storing of gasoline and inflammable substances within the city limits would be a menace and a detriment to neighboring property. Mr. Winkler purchased Coffin Island on which he proposed to erect a fire-proof warehouse and agreed to meet the wishes of the city to the extent of storing only mine and mill supplies. No gasoline would be stored there and the building would be erected according to the requirements of the bylaws. The council on the advice of the city solicitor decided that if Mr. Winkler would furnish bonds for the proper observation of the city's regulations he would be allowed to have a permit. This request Mr. Winkler declared was not within the province of the council to make. Again he wrote to the council asking for the permit and again the council insisted on the same conditions.

Mr. Winkler's Letter.

At last night's meeting the following letter was read:

Gentlemen: I beg to acknowledge receipt of the city clerk's favor of the 1st inst., advising that the council is agreeable to the issuance of a permit for erection of warehouse on Coffin Island, provided requirements of letter of 17th September are complied with, which requirements call for the furnishing of bonds.

I respectfully beg to advise that I have no intention of evading the bylaws, that the requirement of bonds that I will obey the bylaws would be an unjust and unnecessary discrimination against me, that such a requirement is exceptionally unusual and unequal for, that the penalties under the city's bylaws are ample, and that the city has power to enforce the penalties under the bylaws, without bonds.

I would, therefore, ask you, gentlemen, to kindly reconsider the untenable request that I should furnish bonds that I will obey the bylaws, and that you will kindly authorize the issue of building permit without such requirement.

F. C. WINKLER.

That the council should stand by its former demand was the opinion of Alderman Hall, but if the city desired to do what he thought should be done it would acquire the island for a park and he thought a large part of the residents of that neighborhood would be willing to be taxed for a part of the cost of acquiring the property. While he did not wish to bar out industries, the proposed building would prove a menace to the nearby properties. He suggested that Mr. Winkler be advised that the council cannot see its way to change its mind on the matter.

In one of his communications Mr. Winkler hinted at legal proceedings to force the council to grant the permit, but that body apparently does not fear any such action on his part.

Sewage Question

Declaring that the city had not lived up to its agreement in connection with the construction of a sewer across his property, Louisa M. Boggs has written the city that she is preparing to take legal steps to prevent the city from proceeding with the work unless their agreement is carried out. Mrs. Boggs' letter was as follows:

Gentlemen: On May 17, 1907, an agreement was entered into by the corporation of the city of Victoria for the transfer of a strip of land through my property for the construction of a sewer, not to be used until after the construction of a septic tank, in and for sewerage purposes of the district. The sewer having been laid, the corporation has allowed connection to be made with the sewer before the construction of the septic tank. This sewerage has been passing through my property for some months contrary to agreement, no septic tank having been constructed, and I am now advised that another connection is to be made. Should this be the case, it will still increase the nuisance which we have been called upon to endure during the summer, and as no work is being done on the construction of the tank I propose, by the advice of my solicitor, to either take out an injunction against the city or close the present drain entering my property. This will be done after the expiration of the present week. I am, yours truly,

LOUISA M. BOGGS.

Per BEAUMONT BOGGS.

Liquor on City Property

A. J. Pineo, secretary of the Citizens' league, wrote the council as follows:

Gentlemen: I have the honor to convey to you the earnest request of the Citizens' League of Victoria that your honorable body will, at the earliest possible date, take such steps as may in your wisdom be deemed necessary to prohibit the sale of intoxicating liquors upon any property owned or controlled by the city.

Permit me to point out to the fact that a large portion of the citizen body are opposed to the public sale of liquor in such a manner as might afford temptation or furnish degrading object lessons to young men. We believe that it is the unanimous wish of all the societies and organizations represented in the Citizens' league that our civic legislature should not be a part to such traffic to the extent of permitting it to be carried on upon any property under their immediate control.

In connection with the above Mayor Morley stated that in a week or two a by-law would be introduced to deal with the matter of the exhibition grounds, and that this request of the Citizens' league could then be considered. The council decided to defer action until that time.

Amendments Wanted

The near approach of the meeting of the Union of British Columbia Municipalities makes it advisable for the legislative committee to meet and decide on what special amendments and special legislation the city should request at the legislature. The union has been at work on a redraft of the old municipal clauses act, but Mayor

Morley did not think that very much had been done.

Ald. Fell stated it had been the experience of municipalities that it is very hard to get all the powers asked for. The municipality would get some of them, but not all. Very often no measure can get through unless introduced by the government. The result of the legislative committee's work would, he thought, be a formidable bunch of requirements.

Streets, Bridges and Sewers

The streets, bridges and sewers committee reported as follows:

"Gentlemen: Your streets, bridges and sewers committee having considered the undermentioned subjects, begs to report and recommend as follows:

"1. Re communication of Russ Humber for use of street end of Garbally road at Victoria. Arnsby street. Recommends that Mr. Humber be granted permission to load scows at above mentioned point, and to place conveniences there for that purpose subject to the approval of the city engineer, it being understood that the street and landing are public property, free for anybody to use, and that no exclusive right be granted to Mr. Humber. That at any time should the council so desire, they may regulate the use of the same by imposing a charge, or may disallow entirely the use thereof, and that any improvements placed there by Mr. Humber, in the shape of landing or wharf, become at once the property of the city. That the city solicitors be instructed to draft a letter to Mr. Humber embodying the above conditions.

"2. Recommends that a wooden sidewalk be laid on the east side of St. Lawrence street from Simcoe street to Dallas road, 4x600 feet at a cost of \$102."

Other Matters

A. O. Ohlson's complaint of the condition of the ditch on Lansdowne avenue, which he requested it be necessary that a culvert be put in further out on that road to divert water from the Cedar Hill watercourse on Myrtle street, and that if this is not done serious damage may be done to his nursery, was referred to the streets, bridges and sewers committee.

The solicitors report on the letter from Messrs. Pooley, Luxton and Pooley, solicitors for Miss Parschalle, was accepted by the council. Miss Parschalle, through her solicitors, had demanded damages for the destruction of an old house on Broad street, which had been ordered to be demolished by the city. This was done and now the owner asks for damages claiming that the city had no right to destroy the premises. The city solicitor reported that the city had the right to do so.

J. G. Hind, librarian, notified the council that the library committee had granted the Musical society the right to use the large room in the public library for rehearsals and concerts for a period of three months.

A. Tall, addressed the council asking for a small grant to put the ground at the Northward Park in condition so that it could be used as a recreation ground. Mayor Morley stated that \$400 had been appropriated for the North ward park and the parks committee proposed to do some work there but the great trouble hitherto has been the difficulty of getting workmen.

The finance committee recommended the payment of accounts to the amount of \$2,150.36.

Great Northern Extra Dividend.

New York, Oct. 7.—The announcement of an extra dividend of 1½ per cent. by the directors of the Great Northern Railway company was made today. It was announced that the funds for the dividend come from the Lake Superior company, and come not from the ore land which the company leased the U. S. Steel corporation, but from other of its holdings, such as coal lands and express companies' stock.

LID PRESSED DOWN ON ANARCHISTS

Premier Clemenceau Makes Speech Indicating Radical Departure

Paris, Oct. 7.—The repudiation by the Republican majority in the Chamber of Deputies of the anti-military propaganda conducted by the extreme Socialists, under the leadership of M. Jaures and Hervé, is now regarded as complete. The speech delivered by Premier Clemenceau at Amiens last night, coming on the heels of the utterances of M. Briand, the Minister of Education; M. Doumergue, Minister of Commerce; M. Viviani, Minister of Labor, and others, leave little doubt that a complete separation of the two parties will be decreed at the radical congress to be held at Nancy October 10th. The whole country, judging from the comments of the press, is breathing a sigh of relief at the decision of the Republican majority to cut loose from the extremists, who are preaching the expropriation of property and a general strike in the event of France going to war.

M. Clemenceau made it clear by his speech that placing their country above everything did not mean a halt in the work of social reform, but only putting an end to the subversive doctrine of anarchy. There was, he declared, real danger that the extreme Socialists would bring about the overthrow of the Republican regime by playing into the hands of the Reactionists, who would take advantage of the upheaval by bringing about a coup d'état from above.

This speech of the Premier promises to do much to restore his position to the French people. The Republican organizations all consider that he seized the psychological moment to denounce the anarchy, and they express the hope that his statements will open the eyes of the masses "to the criminal exhortations of the despisers of the fatherland." Even the monarchist Gaulois says it would not be prepared for this evolution in the premier's mind, adding: "He attacks the socialists with the same vigor with which he formerly defended them."

The expulsion from France of the Spanish socialists who were invited to speak at socialist meetings here and denounce the action of Spain and Spain's expulsion of M. W. and other French socialists from Madrid on a similar errand, shows that the two governments are in accord in the campaign against anarchists.

Notice of Removal

WE BEG to inform our patrons and the public generally that we are moving from our old store corner of Yates and Broad Streets, to larger quarters in the Mahon Building, Government Street, opposite Spencer's; where we will be ready in a few days to show in addition to our already large stock many new lines which from lack of space we have been unable to carry heretofore.

Though somewhat disorganized at the present moment, any order entrusted to our care, will receive prompt attention.

Ogilvie Hardware, Limited

IMMORTALITY OF SOUL IN THEME

Rev. Leslie Clay Presents Extra-Biblical Proof in Support of Doctrine

The second of a series of sermons on "The Immortality of the Soul" was delivered in St. Andrew's church on Sunday evening by Rev. W. Leslie Clay, under the title "Some Extra Biblical Reasons for Believing in the Immortality of the Soul." The first of the series, preached the previous Sunday evening, dealt with the practical value of the doctrine.

While for the Christian the Bible was highest authority in matter of faith, said Mr. Clay, none would esteem the Bible less highly because its teachings were corroborated from other sources. Among the non-biblical reasons adduced were the following:

The common desire for immortality—a desire as profound and persistent as it was common. Ever since men have thought they have striven for light upon this subject, and although their efforts had often been fruitless the persistence with which they had returned to the search was in itself the strongest proof of immortality. Men shrink from the thought of instruction and long for the continuance of existence. Promotive races had distinguished between the thinking soul and the unthinking body and from many incidents of nature had found confirmation of their hope that the death which overcame the body had no effect upon the soul, and even when among the more cultured the hope had vanished the desire for immortality remains.

"This life, when our lives are scant, More life, and fuller, for which we wait." More life, and fuller, and persistent was in itself a prophecy. "There was no half-joints in nature," as Joseph Cook had so earnestly reminded people. The hope of immortality would not have been woven into the inmost fibres of our being unless we were destined for an endless life.

A second argument was found in the incompleteness of human life. Man's achievements were pitifully disproportionate with his endowment. His reason, will, conscience and love all implied a wider field of operation than the hundred and three score years and ten. A steam plow was not built to turn the soil of a garden patch. A row boat with the Lusitania's engines would be no more incongruous than was the average life span with all the endowment of our nature. Total extinction of being at death was a species of infanticide carried out on a gigantic scale. Transplanted human worth must grow to blossom elsewhere.

A third reason was drawn from the inequalities of this present life. A fair deal was the right of everyone. Not everyone got a fair deal here. The sufferings of innocent childhood, the multitudes condemned from birth to servitude, to conditions that made both goodness and happiness difficult of attainment impugned the justice of this state. Tom Hood and Edward Markham had sung the woes of such a state. Should Christ and Herod, Paul and Nero, Lincoln and Booth pass through death to the same unending sleep or together drop to the abyss of nothingness? Impossible! Would not the Judge of all the earth do right? Clouds and darkness were round about Him, but justice and truth were foundations of His throne. Because

that God was just, because this life was incomplete, and because man so persistently desired it, they might be assured that beyond death was a greater, even an endless life. But what did immortality mean to his hearers? Their attitude to Christ the Lord of life determined that.

SECOND STRAWBERRIES

Another Illustration of the Fecundity of the Climate of Victoria

At the rooms of the Tourist association are to be seen an object lesson of what the climate and soil of Victoria will do in the way of ripening fruit and vegetables. There is a strawberry plant from the garden of George Richardson at 56 Superior street, next to the Parliament buildings, loaded with strawberries, some ripened and some ripening, for the second time this year. The fruit is large and seems to be of the finest quality. Mr. Richardson has already had a bountiful crop off the same plants this year, but a second one is now about ready for picking.

There are also some peas shown, also grown by Mr. Richardson, which are the second crop this year. These results have been obtained without any special effort in the way of forcing, and show that of Victoria's soil too it may be truly said: "Tickle it with a hoe, and it will laugh with a harvest."

Canadian Club Members.

The following have been admitted to membership in the Canadian Club of this city: A. B. Fraser, jr.; Jos. Lassee, Capt. C. E. Clark, R. von C. Besonette, Geo. Sisman, S. Manuel, B. C. Nicholas, C. Dubois, Mason, Dr. E. C. Hart, Fred Peters, K. C. H. P. Puley, R. W. Perry and W. G. Winterburne.

OBITUARY NOTICES

The funeral of the late Richard Alexander Dodd took place Sunday afternoon from the family residence, 28 Bay street, and was largely attended, the members of the Eagles and the Cigarmakers' union, of both of which he was a member, turned out in full strength. An unusually large number of floral offerings covered the casket. Service was conducted by Rev. A. E. Roberts, after which the cortege proceeded to Ross bay cemetery where the Eagles had charge of the service. The pallbearers were: C. Hovey, E. Louson, H. Behnson, J. Berryman, H. McBriney and G. Chessford.

A Farmer's Suicide.

Esterhazy, Sask., Oct. 7.—Dr. Kee, of Esterhazy, was notified as coroner of the finding of a body in a barn ten miles south. On going there he found the dead body of a farmer, Eric Christopherson, suspended by a rope from the rafters of his own barn. Although life was extinct, the body was yet warm. The supposition is that deceased deliberately climbed up to

the rafters, tied the rope around his neck and then jumped towards the ground. Deceased had been despondent for some days over business, and particularly about a threshing outfit in which he was interested. He was 52 years of age and leaves a widow and seven or eight children.

BRITISH STEAMER'S CARGO

Washington, Oct. 7.—A conference was held at the navy department today between Secretary Metcalf, Commissioner of Navigation Chamberlain and the solicitor of the department of commerce and labor regarding the status of the British tramp steamer Netherle, which took a cargo of coal for the navy department to the Bremerton navy yard and was held up there for tonnage dues and light taxes.

Advices received at the department today were that the vessel is discharging her cargo. A thorough search was made of the records today to ascertain whether any immunity from the charges had been promised to the owners or agents of the vessel, Secretary Metcalf declaring that so far as he was aware none had been given.

The contention of the naval officials is that the old law imposing tonnage and light dues was superseded by the statute which forfeits to the government cargoes carried by foreign vessels in the "American coastwise trade in violation of the law. The attorney general, in his recent opinion, replied in the negative when asked by Secretary Metcalf whether the prohibition contained in the law extended to merchandise which constituted "property owned by the government." This being the case, and the cargo being one of several belonging to the navy, the officials of the latter department fails to see any reason for the detention of the vessel. A dozen or more other foreign vessels chartered by the equipment bureau to carry coal to the Pacific coast will be affected by the final disposition of the present case.

BROCKVILLE BYE-ELECTION

Conservative Carry Seat for Ontario Legislature.

Brockville, Ont., Oct. 7.—The bye-election was held here today for the Ontario legislature. A. E. Donovan, Conservative, was elected over W. A. Lewis, Liberal, by about 150 majority. The election was rendered necessary by the resignation of Hon. G. P. Graham, when he was called to the Dominion cabinet.

Mr. Graham's majority at the last general election in 1903 was 189. Mr. Donovan on that occasion was his opponent.

The C.P.R. Party.

Winnipeg, Oct. 7.—Sir Thomas Shaughnessy and party arrived in this city this evening. Tomorrow they inspect the terminals, and leave for the coast on Wednesday.

THE HOUSE OF QUALITY

Department No. 7

Spectacles, Eyeglasses, Etc.

Our Optical Department is steadily extending its clientele. The growth during the last month has been remarkable indeed. In this department the equipment and apparatus are unsurpassed in Canada. Our stock is composed of American and English goods, and sold at the lowest possible prices; special attention given to children's eyes and testing done by a Scientific Optician free.

CLAIM INCREASE NOT JUSTIFIED

Aldermen Want Explanation of Recent Rise in Local Insurance Rates

That the city council is not at all satisfied with the explanation given by the insurance companies that the recent increase of 30 per cent in the insurance rates on all risks within the area enclosed by Bay, Quadra and Humbolt streets and the waterfront on the west was indicated when, as the result of a letter received from A. W. Bridgman, local agent of the Commercial Union Assurance company, limited, and read at last night's council meeting, it was decided to demand of the Fire Underwriters' association an adequate explanation of the increase. Mr. Bridgman's letter was as follows:

"Dear Sir: I beg to notify you that owing to the supply of water in the city at the present time, not being sufficient for fire protection purposes in the event of a serious conflagration, the principal fire insurance companies doing business here have made a 30 per cent increase of rates on all risks within the area enclosed by Bay, Quadra and Humbolt streets and the waterfront on the west, such increase being in force till the water supply is shown to be sufficient for fire protection purposes.

"This explains the increased on renewal of policy I now solicit. I am, yours truly, A. W. BRIDGMAN.

"per J. W. S."

Ald. Vincent considered that it was in order for the insurance companies to explain why they think there is less fire protection now than before. The city has installed a pump at Elk lake, and he thought that the underwriters would have a job to prove their assertion. At the big fire it was not the lack of water which caused the conflagration. That had been shown in the investigation which had been held. Mayor Morley declared that there was no reason in the world for the advance in rates and Ald. Hall thought that at the present time the fire protection was better than at any time within the past three or four years.

"Why didn't they raise the rates before?" he asked. It was because that there had been no big fire until the recent one which had been seized upon as a pretext to jump the rates. If that was not the reason, then it was certainly incumbent upon the underwriters to say what was the real reason and not ascribe their action to the general one of insufficient fire protection.

To find out what the exact reason of the rise in rates the city will write to the underwriters requesting an explanation.

MUSIC AND DRAMA

Mayor of Tokio Tonight.

Beautiful scenery and gorgeous costumes are features of the new farcical opera, the best Richard Carle has ever written, "The Mayor of Tokio," that will be seen at Victoria Theatre tonight. The pink and white parasol of gay Japan never seems to lose its sparkle of casting rose light over a couple of hours of dance, dialogue and song. Mr. Carle's new Japanese sunshade covers a corpulent Tokio Mayor and his charming daughter; a disagreeable middle aged minister of state who insists upon marrying that daughter; an explosive Russian with a bomb; a pretty American girl, and last, but not least, a stranded American opera troupe, much the worse for wear on their way home from Australia.

This forlorn band of Kidder's Konsolidate Komiques consists of Marcus Orlando Kidder, the exuberant but penniless impresario; a wardrobe mistress of uncertain age, with deep furrows in her face and disposition; a tenor, a song-book boy, a soubrette, and a bedraggled peanut ballet. Happily they are all taken for princes and princesses in disguise by the cheerful Tokians. There is a bit of a plot. The Mayor's daughter, the Princess Oloto, falls in love with the tenor of the Komiques, and, of course, he really isn't a singer at all, save for the time being until his wealthy father, an American, turns up with the steam yacht in three to see the end of the last act. The story swings along easily while gorgeously dressed Jap men and maidens trip about and form pretty backgrounds for songs and specialties. The music is said to be particularly bright, tuneful and catchy, the work of W. F. Peters.

"The Time, Place and the Girl"

About all that is necessary to say about "The Time, Place and the Girl" is that it drew an audience which occupied every seat in the theatre and most of the standing room, and was greeted by applause throughout. No one exactly knew what it was all about, but that did not make any difference. The great audience went to be amused, and it was amused. The music, with which the play is liberally interspersed, is catchy; the costumes for the ballet are very unique and original, and the stage manoeuvres very artistically arranged and well executed.

Pantages Theatre

For those who enjoy good comedy, singing and dancing the Johnson street theatre has it in abundance this week, and those who attended last night found every act full of life and a programme that was throughout entertaining and amusing. Weaver, Drew and Bryant, a cleverly prevented sketch entitled "Mexico," which was far above the average. Weaver and Bryant are possessors of good voices and sing well. John Drew is a comedian of ability and comes in for a big share of applause. O'Dell and Hart have a comical burlesque on "Little Eva" and introduce some singing, dancing and acrobatic work with a mixture of funny sayings and situations which please well. The Wallace Sisters are a bright pair of song and dance artists, and do some neat wood-shoe dancing, which catches on immensely. Larkin and Burns are two funny comedians and give some good eccentric dancing and wind up with burlesque acrobatic work that is very amusing. Tommy LaRosa sings "If I Only Had a Home, Sweet Home" with pretty illustrations, and the Pantage company brings to a close a very unique and entertaining programme, and one that will no doubt please during the week.

PROGRESS OF THE PROVINCE

Hon. J. H. Turner Notices Many Changes in His Tour of British Columbia

Hon. J. H. Turner, agent general for British Columbia in London, has returned to the city from a tour of the mainland. From here he proceeded to Revelstoke, thence down the Arrow Lakes to Nelson, from Nelson to Kaslo and on to Rossland. From Rossland he went to Grand Forks, from there to Phoenix and then on to Greenwood and Midway. By rail from Midway to Orville and from the latter point driving to Penticton, a distance of sixty-four miles. By steamer he went to Kelowna and thence to Vernon, returning to New Westminster last Friday and to this city on Sunday.

Mr. Turner remained from a day to three days at each of these points, visiting the mines and smelters, most of the orchards and fruit farms, and at Coldstream inspecting the irrigation canal, which is in course of construction by Lord Aberdeen company. This canal will, when completed, irrigate from 20,000 to 30,000 acres, which otherwise would be unfit for cultivation.

"I was very much struck," remarked Mr. Turner, "throughout my tour by the wonderful change in the country and the great prosperity of all the people I encountered. At many points that I had known before I left British Columbia for England and which then appeared to be simply rough forests or rock I now found thousands of acres of cultivated fruit lands. Fruit shipments were being made from some places which a few years ago, except for a prospective value from any mineral which might be found to exist, were valueless. At Grand Forks I saw a large body of men at work picking and packing Italian prunes. The crop has been estimated at ten carloads of ten tons each, all of which is being sold at a good paying price.

"Horticulture seems to have changed the whole character of the country and put renewed spirit into all the people.

"I met men who told me that of their hundred and sixty acres of land only a few years under cultivation, they were making some \$2,500 profit. It was very evident from the increased and steadily growing demand for fruit their net income in a few years would amount to \$10,000. From my knowledge of the condition of the fruit trade in Great Britain, I was able to assure them that when it was desired, there would be a great market for their fruit in the old country, especially for their choicest fruits. The great fruit dealers of London have found that with the increased supply of fruit, there is a steadily increasing demand and taste for fruit amongst the people of Great Britain.

"But not only did I see prosperity amongst the fruit growers, but I found the lumber mills and the mines very busy and with splendid prospects of very profitable returns. The Granby smelter and mines and the smelter at Greenwood are well worthy of a journey to see them alone. At the Granby mine I found the work going on under perfect organization, smelting at the present time some 3,000 tons a day. They are now increasing the capacity of their furnaces to 4,000 tons a day, under the able management of Mr. Hodges.

"I met many tourists from the old country on my journey and I persuaded them not to be satisfied with seeing the Kootenays and Okanagan, but to visit other sections of the province and particularly Vancouver Island. This evening I have met two gentlemen who have just arrived from the mainland, and they tell me that while they were greatly impressed with the beauty of the scenery, the apparent prosperity and the charming climate of the mainland, they had already arrived at the conclusion that Victoria and its surroundings was the most beautiful of the many beautiful spots in the province.

"I need hardly say how greatly I appreciate the hospitality and kind welcome I have received on the whole of my journey and also in Victoria.

"I find it very difficult to leave my friends in this city, as I must do on October 18."

WILL RECOMMEND AN INCREASE IN GARRISON

Dominion Officer Has Just Completed an Inspection of Esquimalt Defences

Lieutenant Colonel P. Weatherbe, O. C. R. C. E. at Halifax, whose departure for the east was mentioned in the Colonist of Sunday, has just completed an official tour of the Canadian military stations, commencing at Halifax and including Quebec, Toronto, London, Kingston, Montreal, St. Johns, P. Q.; Ottawa and Victoria. He has been on the road for the past month.

As a result of his visit it is altogether likely that he will recommend an increase in the number of men stationed here. The number stationed here is about 130, including engineers, artillery, ordnance, pay department, army service corps and army medical corps. At Halifax there are over 1,500 men and any supplementary draft will probably come from there.

The complement at present is quite inadequate to take charge of the work at Work Point and Esquimalt fortifications, and the matter will probably be brought to the attention of the authorities by Colonel Weatherbe.

King's Daughters' Theatricals

The King's Daughters will hold an amateur theatrical performance in the Victoria theatre on November 29 and 30, presenting the play "The House That Jack Built." The talent committee held a meeting yesterday afternoon to arrange for the entertainment. The Daughters of Pity of Vancouver will put on the same performance the last of the present month under the direction of Miss Martin, who will also have charge of the local performance.

Lever's Y-Z (Wise Head) Disinfectant Soap Powder is better than other powders, as it is both soap and disinfectant.

Ladies' Outfitters

CAMPBELL'S

Everything Ready-to-wear

Important Intimation

WE have just unpacked three large consignments of super-fine Silk Blouses which should delight those ladies who demand correctness of detail and fashion in their apparel.

Dressy Silk Blouses Direct from London

Comprising the very latest London fashions in silk blouses; the sleeves are chiefly three-quarter length, the material is extra quality silk; and the trimming is carried out in that perfect taste for which English silk waists are renowned. Every lady can afford one of these very dressy silk blouses, the range of prices is so complete, viz:

\$2.75	\$3.75	\$4.75
\$5.75	\$6.75	\$7.75
\$9.00	\$11.00	\$15.00

Very Handsome Black Silk Blouses

These are also direct from London; they are extremely handsome and exquisitely trimmed with lace yokes, fine pleating, etc.; the quality is peau-de-sole of fine quality and the prices are most moderate, viz:

\$4.25, \$4.75 up to \$9.75.

In the same consignment are some delightful silk blouses, English make, in Nile green, sky blue and delicate pink, very elaborately trimmed and finished for evening wear, at, each, \$11.

Choice Tailor-Made Silk Blouses

Those ladies who are desirous of purchasing a very handsome tailor-made silk blouse to wear with tailored skirt should certainly see this new importation. These silk waists are in Gibson and other fashionable styles, very correctly trimmed, pleated and finished with three-quarter and full length sleeves. The colors are brown, navy, red and black. They are a great bargain at our price of \$5.75.

WE ARE ALSO showing a charming assortment of silk blouses in fine checks at \$7.50, and in very fashionable black and white and blue and white plaid at.....\$8.75 These are very choice creations.

DO NO OMIT to inspect our hand-tailored costume skirts from \$5 up, and also our charming Panama and Voile hand-tailored skirts, from up.....\$9.75

ARE PREPARING FOR BIG REVIVAL

Committee Making Arrangements for the Coming of Crossley and Hunter

A general committee appointed from the various churches of the city met in the auditorium of the Y.M.C.A. last evening with Rev. T. W. Gladstone in the chair. After prayer by Rev. G. K. B. Adams the meeting proceeded with organization. Noah Shakespeare was elected permanent chairman and Dr. William Russell secretary. The purpose of the committee is the arranging and supervision of an evangelistic campaign to be conducted under the leadership of Messrs. Crossley and Hunter, beginning Oct. 27 and continuing for one month.

The following committees were appointed:

Finance—Messrs. G. McCandless, A. Lee, A. B. McNeill, W. Scowcroft, and R. S. Day.

Music—A. J. Brace, Rev. C. Burnett and Rev. H. A. Carson.

Press and advertising—Rev. A. E. Roberts and S. L. Gray.

Ushers—J. B. McCallum was appointed to act as chief usher.

It was decided to hold special prayer meetings previous to the opening of the campaign and these will take place each evening during the week commencing Oct. 20 in the Congregational church. There will also be noonday meetings in the Y.M.C.A. auditorium during the same week. The matter of selecting a building for the general meetings was deferred till next Monday evening, when the committee will again assemble at the Y.M.C.A.

The following named represent the general committee appointed from the various churches:

Presbyterian—First—Rev. Dr. Campbell, George McCandless, W. Griegson, St. Andrew's—Rev. W. Leslie Clay, R. B. McMicking, Donald McLean, Malcolm Crawford.

St. Paul's—Rev. D. McRae, W. McDonald, L. Tait.

Methodist—Metropolitan—Rev. G. K. B. Adams, A. Lee, J. B. McCallum, F. J. Hall.

Centennial—Rev. S. J. Thompson, N. Shakespeare, W. C. Holt, H. H. Dickson.

Victoria West—Rev. A. E. Roberts, R. M. Driver, A. J. Daniels.

Baptist—Central—Rev. E. Leroy Dakin, J. R. Wescott, A. G. Pennington, G. Waites.

Central—Rev. C. Burnett, A. B. McNeill, J. L. Beckwith, W. Middleton.

Calvary—Rev. F. T. Tapscott, Dr. W. Russell, R. Bagshaw, S. L. Tray.

Congregational—First—Rev. H. A. Carson, W. Scowcroft, J. Martin, S. Reid.

Reformed-Episcopal—Rev. T. W. Gladstone, R. S. Day, Admiral Bell, E. H. Dodgson.

Y.M.C.A.—D. C. Reid, R. C. Horn, W. G. Findlay.

Harmony Hall mission and Salvation Army—To be appointed.

Daughters of Pity's Returns

The Daughters of Pity held a meeting yesterday afternoon to wind up the affairs in connection with the "rest" tent at the exhibition. The net receipts of the venture were \$200, which will go to the Provincial Royal Jubilee hospital.

TO KIPLING: GREETING.

It is pleasant to be able this morning to say a few words of greeting to Mr. and Mrs. Rudyard Kipling. Mr. Kipling has laid the English-speaking world under tribute. To say anything of his work and fame as a writer would be superfluous, but as a paper, which for nearly half a century has maintained British traditions, as best it could, at the Westernmost outpost of the Empire, perhaps the Colonist may be permitted to express its great appreciation of what he has done to develop throughout British lands the true Imperial spirit. It would not be easy to say in definite terms in what way our distinguished visitor has done this. His vigorous prose, his powerful verse are instinct with a spirit which is contagious. He has been called "the poet of Empire," and so he is, but it is not because he has striven to be so, but because his own instincts have impelled him. His sentiments appeal to the British heart. He sounds a note, which we in this remote corner of His Majesty's dominions beyond the seas waiting long to hear. When he speaks of Imperial things he voices the sentiment of the people of Greater Britain. His stirring lines are "shuttles of the Empire's loom" weaving a bond between Britons everywhere.

It would be an excellent thing if Mr. Kipling could spend some time in Canada, long enough to come into touch with the rank and file of the Canadian people, for we feel sure that, if he could, he would discover how to express their aspirations as no one has been able as yet to do. Many visitors from the Mother Land look upon Canadians as people who either themselves came from the United Kingdom or are at most only a generation removed from an English home. When they are told that there are very many of our people, who have had no ancestors living east of the Atlantic since George I. came to the throne, they find difficulty in realizing it, and they fall utterly to appreciate what it signifies. Yet it seems to us a most notable thing that people, whose ancestors for eight generations and more have lived in America, cherish as deeply the British tradition, and are as devoted to British institutions, the British flag and the British crown as their fellow subjects, who have never crossed the Atlantic. We venture to think that this is something without precedent or parallel in all history, and it seems to us to be one of the best evidences that can be asked that there is that inherent in the Empire which will withstand all disruptive tendencies. May we express the hope that our distinguished visitor will some day feel like saying in his own powerful way a few words in appreciation of the Loyalist founders of Canada? The men and women, who in a spirit of devotion and self-sacrifice stood for the flag in the Thirteen Colonies, and accepted exile and untold privation as the reward of their fidelity ought not to be forgotten in these later days, when the word Empire is on every tongue, and Canada, which they preserved for the Crown, is regarded as the Keystone in the Imperial Arch.

Mr. Kipling is welcome as an author of repute. He is welcome as a true Empire-builder, for as the Imperial fabric is largely founded on sentiment, the man who promotes the development of British ideas, who teaches us to see all sides of the British character, who puts us in touch with British work in those parts of the King's dominions which few of us can hope to visit, who shows up our weaknesses without disguising them, but also makes our strength apparent by the very fact that he presents the reverse side of the picture, is doing much for the British race. Greeting him as one who has voiced the feelings which stir all our hearts, though our feeble words have failed to express them, we give back to him, as conveying our appreciation of the hold he has upon the British race, the words which he himself has applied to Victoria: "From East to West the circling word has passed, 'Till West is East beside our land-locked blue; 'From East to West the trusted chain holds fast, 'The well-forged link holds true."

ASIATIC EXCLUSION

The failure of the Nanaimo meeting, called to form an Oriental Exclusion League, and the practical failure of the movement in Victoria mean that the people in the two cities take very little stock in such a method of giving effect to public opinion. They realize that there is more involved in the question than a few extremists think, that it is something affecting all elements of the community, that the occasion is not one that demands any violent action and that the object of the exclusion movement is likely to be defeated if it is allowed to get

into the hands of demagogues. The problem is not a local one. It affects every part of the British Dominion except the British Isles, and a few minor points. Australia, New Zealand and South Africa are as much concerned as Canada. Hence it is not a British Columbia question, still less is it a Victoria, Vancouver or Nanaimo question. It must be adjusted between governments, but in its adjustment effect must be given to the opinions of millions of people. Therefore we are glad that citizens are showing an unwillingness to treat it as a matter to be disposed of by a more or less injudicious agitation and the making of inflammatory speeches. The sober sense evidenced by the people of Victoria and Nanaimo will have more effect in bringing about a satisfactory settlement than a lot of ill-adviced heroics.

We reprint the following from the Times of this city, and we hope that we are not in error in attributing it to the direct inspiration of the Minister of Inland Revenue. It would certainly be highly desirable that with the reasonable exclusion of Japanese there should be permitted as free commercial intercourse as possible between the two countries. The extract is in line with what the Colonist has persistently urged during all the discussion of Oriental exclusion. We have insisted that it would be worse than folly to be hasty in forcing a decision, that the Japanese government would be the first to recognize that the wishes of the Canadian people are quite as much entitled to respect as those of the Japanese people, and that it is as much to the interest of our ally as to ours that friendly relations between the two nations shall not be interrupted. We hope the Times expresses the views of the government of which its proprietor is a member. We quote:

There has never been any doubt in our mind that Japan is quite as anxious for an amicable adjustment of the matter as Canada or British Columbia. There can be no question that when the representatives of the Dominion and the representatives of Japan meet and discuss the situation in a spirit of amicable adjustment, a spirit of determination to reach an agreement that will meet with the approval of the people of this province, their efforts will be crowned with success; that as a result of such negotiations the menace to the labor of the province, which some maintain is merely a sporadic movement engendered by transportation companies, will be permanently eliminated and that Canadian trade with the Orient, one of the important factors in the prosperity of British Columbia, will, with the continuance of the entente cordiale, continue its process of expansion.

THE PANAMA CANAL.

It is rather startling to be told that by the time the Panama Canal is finished, it will be out of date. Nevertheless this is what is now stated. A vessel like the Dreadnaught would have only seven and a half feet on either side to go and come on, if an attempt were made to take her through the canal as it is at present planned, and in the course of a short time the Dreadnaught may be replaced by yet larger vessels. A canal that is not big enough to accommodate any vessel is not a supremely important thing. The German government dug the Kiel Canal, and were very proud of it. Now they find that it will have to be deepened and widened if it is to be of any service for use by battleships of the latest type. Already estimates are being attempted to determine how much bigger it will be necessary to make the Panama Canal so that it will be of any real service. Of course the amount runs up into the millions, and a good many of millions at that, for in point of fact no one really knows what the canal is going to cost in the first place. Undoubtedly a transisthmian canal, connecting the Atlantic and the Pacific, is a great undertaking, and will add materially to the development of commerce between the two coasts of America, and also undoubtedly a canal that will accommodate ships up to a certain tonnage would prove very useful, but one through which the United States could not take its largest war ships would fall far short of the design of those who were instrumental in committing the nation to this great undertaking.

Cannot something be done to improve the ventilation of the Victoria theatre? It is really very bad.

The Toronto World locates our evening contemporary at Vancouver. Will the Times sue for libel?

If, as a dispatch says, the King is slightly deaf, it will become fashionable to be hard of hearing.

Great Britain has gone crazy over "Limericks." In the last week in August over 500,000 were distributed in prizes for such verses by seven periodicals printed in London.

United States railways complained that the 2-cent fares prescribed by law would be ruinous. The experience in Missouri has been that the traffic receipts have very greatly increased.

This has been a remarkably successful year for exhibitions all over Canada. Record attendance is reported from all points. This indicates that the people generally have money to spend.

At this fall's naval manoeuvres off the coast of Scotland Lord Charles Beresford will have under his command the Channel, Atlantic and Home fleets, comprising sixty-seven large and fifty small vessels. The object of the manoeuvres is to test the plans for the defence of the coast of Scotland.

The Edmonton Journal says that all over Alberta there is a feeling of buoyancy and hopefulness, and adds that this is "worth more than a million hard cash." Will some of those people in Victoria who vex the air with their complaining kindly make a note of this?

Dr. Graham Bell tells the Halifax Chronicle that his experiments so far have been very successful and that he expects to have his flying machine ready for a trial in a very short time. The first flight will be attempted with a sand load equivalent to the weight of a man, and if all goes well, a man will then make an ascent.

In Northern Ontario there will be a stretch of seventy miles on the line of the Grand Trunk Pacific without a curve or rock cutting. This, it is stated, will be the longest continuous piece of straight track on the Continent. Reports of surveyors speak very highly of the country in Northern Ontario, which the new trans-continental railway will travel.

Mr. Pugsley, the new Minister of Public Works, threatens the Toronto World with a libel suit for saying that he was "on the inside of the Blair-Russell deal." If Mr. Pugsley is well advised he will stop proceedings. Not many people in Canada know what the World referred to and very few of them who do know, care anything about it. Mr. Blair is dead, and in deference to his memory Mr. Pugsley ought to let bygones be bygones.

Senator McHugh thinks he has solved the Oriental question. He says that if the people of British Columbia would not employ Orientals there would be no work for them, and therefore they would stay at home. Two things about this strike us as astonishing. One is that the Senator thought it worth while to say anything of the kind, and the other is that any one thought it worth while to telegraph such childishness half way across the Continent.

The people of Port Angeles are very enthusiastic over the future of their town. They are relying upon the fact that a one per cent grade for a railway has been found all the way to Portland, and they believe that this low level will lead to the freight business from Oregon and Western Washington finding its way to the harbor across the strait. There is a three per cent grade in several places between Seattle and Tacoma on the one hand, and the areas from which Port Angeles hopes to draw its trade on the other.

The decision of the Canadian Club to permit the members to invite ladies to be present and hear what their guest, Mr. Rudyard Kipling, will have to say at the luncheon on Wednesday, will no doubt be much appreciated, and many ladies will probably avail themselves of the opportunity to be present. Some ladies think that if the Club could, we will not say embrace, but include them, it would be an excellent thing. The unfortunate part of such a proposal is that the luncheons are held under circumstances which would render it almost impossible for ladies to participate, as a rule.

We confess to be unable to understand the spirit in which the Montreal Gazette approaches the question of Japanese immigration. It goes on record as opposed to any restriction being placed upon it. The Gazette is not given to making points against its political opponents regardless of the effect upon the country, or we should look upon what it says simply as an attempt to embarrass the Ottawa ministry. As we find ourselves unable to reach this conclusion we can only express our surprise that our contemporary falls so completely to appreciate the necessity of checking the influx of Japanese.

Japanese as farmers, that is as the owners of farms, are likely to prove a formidable factor in any country, not because they will compete with white people, but because they will drive them out of communities in which they settle. This point has been well brought out by the San Francisco Call in an article quoted by the Times last evening. Something of the same sort of thing is going on in the Maritime Provinces and the New England States, only in those instances, the intrusive element is the French-Canadian. We do not wish to be understood as suggesting that the French-Canadian is an undesirable citizen under any circumstances, but what is transpiring in the localities mentioned illustrates how a people of one nationality can drive out another, when there is any marked difference between their customs. A French-Canadian settler will move into a community composed exclusively of English-speaking people. He will be a good farmer and an excellent neighbor. After a few years another will come and buy a place not far from his predecessor. Then a third will come and so on, until there is a distinctly French aspect to the neighborhood. Then the English-speaking people will begin to be anxious to move away, their farms will be sold cheaply and there will be French-Canadians ready to buy them. So very common is this sort of thing that it has been suggested that the movement is organized and directed by some powerful central body. It is a movement to which no reasonable objection can be taken. The French-Canadians are industrious, thrifty and in every respect good citizens, but somehow or other they do not blend with the English-speaking farmers. If this is true in their case,

how much more will it be true, if an Oriental race ever gets a foothold in Canada?

MORE MONEY FOR SOOKE SURVEY

Fifteen Hundred Dollars Needed to Complete Work—Appropriation Used

The appropriation made for the Sooke watershed having become exhausted it will be necessary for the city to spend another \$1,500 before the work will be finished by reason of the request of Mr. Adams, the expert engaged by the city to pass upon the whole question of water supply for the city. Mr. Adams wants more information than has already been obtained and to get this will cost the city the extra amount. The original appropriation was \$3,000 so that the entire cost of the survey will total \$4,500. This information was conveyed to the city council at last night's meeting by the city engineer. The fact that the original appropriation has all been expended came in the nature of a surprise to the mayor and aldermen. Mayor Morley declared that he was certainly not aware that the money had all been used, while Ald. Vincent thought the council should have been notified of the fact that the appropriation was becoming exhausted. The matter was referred to the finance committee for consideration. The city engineer's letter read as follows:

Gentlemen,—Re Sooke survey. I have the honor to report that the field work of the above survey is now complete and the office work is all that remains unfinished. I may say the original estimate of this work provided for surveying a pipe line to the lake, but after hearing from Mr. Adams that he was going to require the area of the lake and watershed soundings, etc., which made it necessary to run 63 miles of line besides 30 miles of track survey. I regret, however, to state the work has exceeded the vote made and it will be necessary for your honorable body to make a further appropriation of about \$1,500 in order to be able to complete records now in our possession.

Mayor Morley informed the council that on Saturday afternoon last, accompanied by the water commissioner and the city engineer, he had visited the Esquimalt waterworks property at Goldstream and he thought it would be a good plan if the council would also pay that place a visit together with several of the representative business men of the city, and size up the company's plant and the conditions there. On last Saturday's trip, T. Lubbe, manager of the waterworks company, accompanied the party. They had found that the water in the lakes is very low and the com, any has evidently made sale of all the water at its disposal this year and is evidently intending to use it to the limit. Lubbe, No. 2 was nearly empty, the mayor stated, and No. 1 had fallen about seven feet, the company having about nineteen feet still to draw upon. The commission condition of the water seems to be coming soon there is going to be a shortage of water. He declared that the Goldstream proposition did not look as good to him as Elk lake. The tramway company was using all the water the lakes could supply.

It was decided that the council should make a trip to Goldstream next Saturday.

WANTS LINE OF STREET DEFINED

Mr. Justice Martin Complains to City Council About Condition of Maud Street

Information conveyed to the city council in a communication from Mr. Justice Martin would indicate that the city has a problem on its hands which will prove a troublesome one unless attended to at once. The city has had difficulty in straightening out disputes which have arisen by reason of the incorrect survey of several street lines and highways, and Mr. Justice Martin has drawn attention to another case which requires attention. He wrote that, in his letter, read at last night's council meeting, was referred to the street, bridges and sewers committee and the city engineer:

Gentlemen,—I beg to request that you would give the necessary directions to have ascertained by and properly defined the width and boundaries of the public highway known as Maud street, leading from St. Charles street to Belmont avenue (formerly St. George street), and stopping at my main door. According to the registered plan (No. 23) dated 23rd April, 1889, that street is fifty feet broad. I bought my original property from that plan and have understood from D. W. Higgins, the original owner of all that immediate neighborhood, that the existing street lines were not accurately represented by the fences thereon, and this have already been out to be the case. The fence line on the south side was, I believe, adjusted when Mrs. Penelope Wilson built her house a few years ago, but that on the north side remains as it was, encroaching on the public highway. The consequence is (as I find by measuring as correctly as possible with a tape line) that said north fence encroaches considerably on the highway, viz., two feet eight inches at the corner of St. Charles street and one foot eight inches at the corner of Belmont avenue, more or less, and thus invades public property to that extent, and correspondingly curtails the lawful width of the highway. There is a peg at the corner of St. Charles street showing the encroachment there, but none that I can find at the corner of Belmont avenue opposite my place.

I beg, as one directly interested in the matter, both publicly and privately, to suggest that in view of building now going on on the property in question, no time should be lost in preserving at the corner of the street, and avoiding much unnecessary difficulty in future, such as has unfortunately occurred in other parts of the city regarding highways and street lines. ARCHER MARTIN.

New Undertaker Arrives

J. K. Brennan, formerly with Bonny-Watson Company Undertakers, Third avenue, Seattle, has arrived in Victoria to take up the position as embalmer and funeral conductor with W. B. Smith, undertaker, Yates street. The office will be always open day and night.

Leaves for Tacoma

John Minto, for nine years telegraph editor of the Times, left for Tacoma on Saturday to take a position with the Ledger of that city. Before he left he was presented with a case of pipes on behalf of the Times company and the staff. Hon. William Temperman made the presentation, and wished him success in his new field.

Farmers' Institute Meeting

Farmers' institute meetings were held last night in Sidney and Colwood. At the former place the speakers were Messrs. Keats, Hamilton and Poplar with Miss Maddock. They will also address the meetings at the Temperance Hall, Cedar Hill, this evening, and at Royal Oak tomorrow night. At Colwood the speakers were Dr. Tolmie, W. J. Kydd and Miss Rose.

Finest in Province.

J. E. Smart, secretary of the British Columbia Agricultural association, has returned from New Westminster, where he spent all of last week. While admitting that the Royal city exhibition was a very good affair of the kind, Mr. Smart cannot see where it classes with the Victoria exhibition, and is now more satisfied than ever that Victoria has the finest annual exhibition in the province.

Householders Register

Since the first of the month a total of forty residents have taken the declaration required of them in order to permit of their voting as householders at the forthcoming civic elections. This number is considered to be a good one and is in excess of that for the same time a year ago. The great majority of householders delay making the necessary declaration until well on towards the end of the month.

Speaks This Evening

Stewart Muirhead, general secretary for British Columbia, Alberta and Saskatchewan of the International Sunday School association, will deliver an address this evening in the First Presbyterian church, Pandora avenue, on Sunday school work in connection with the international association. Mr. Muirhead will leave tomorrow morning for Vancouver where he will remain until after the provincial convention which will be held next week.

Y. M. C. A. Activity.

Tomorrow evening the new directors of the Y. M. C. A. will hold their initial business meeting, when officers will be elected for the year and committee appointed to take up the different branches of work. Tonight there will be a meeting at the association of all those desirous of entering the educational classes of the institution. Principal Tait will be present to confer with those in attendance. Some evening this week, probably Thursday, there will be a meeting of those interested in forming a literary and debating club in connection with the association.

Hunters Get Big Bags

The Hunter's country has proved particularly attractive to hunters this year and a large number of hunting parties have obtained good bags there. C. P. Reid, of the Stikine hotel, at Telegraph Creek, who has sold out and is now staying at the Victoria hotel here, brought down a fine collection of heads of sheep, moose and caribou. Among the parties enjoying hunting in the north were Charles D. Butler, a wealthy timber merchant of Pittsburg, Mass., and Lord and Lady Hindle, who left last night for Vancouver. The hunters had an interesting time getting across the mouth of the Stikine river in their canoe, the water being very rough.

How Heavy is a Swan

In the white swan contest, held at the recent exhibition, where two white swans were on exhibit, over seven thousand persons put the weight of the swan at over fifty pounds. One energetic citizen who was over anxious to win the silver tea service, was seen out at the park in the early morning endeavoring to catch a swan, the better to enable him to give a correct estimate of the weight. Whether he was successful in catching the swan or not his name does not appear on the list of prize winners. The swans together weigh 37 pounds 10 ounces. There were four who named the correct weight and two who came within an ounce of it. A drawing to determine on what order the prizes were to be given was then held, with the following result: Mrs. M. E. Miller, 88 North Park street, won the first prize, a silver tea service; Mrs. C. M. Anderson, 325 Simcoe street, the dinner set; Mrs. H. B. Randall, 109 Government street, the clock; Mrs. M. E. Manpole, Nanaimo, chaffing dish; Mrs. G. Cloverdale, 933 Caledonia avenue, the toilet set, and Mrs. R. A. Bevan, 12 Market street, the two pictures. By calling at the white swan premium bazaar, 82 Douglas street, the prize winners may obtain their prizes.

Vancouver Woman's Patent

Mrs. W. McPhee, of Vancouver, received during the past week a Canadian patent on a simple and ingenious device for determining the length of the next stitches in sewing on buttons. Where the cloth is of any considerable thickness the button requires the correct length of equivalent length and difficulty is experienced in sewing on the button with the required uniformity in the length of the stitches, as the latter stitches will unavoidably become shorter as the button tightens on the cloth. As a result these later stitches have the greater strain to stand and are the first to break.

To overcome this objection Mrs. McPhee has devised a button sewing needle gauge, which being interposed between the button and the cloth ensures the correct length and uniformity of the stitches sewn through it. This patent was obtained through the agency of Rowland Brittain, patent attorneys, of Vancouver.

Mistake in Date.

In the wedding notice of John W. Darcy, of Whitehorse, to Miss Alice Grey, of Galliano Island, recently published in the Colonist, the date of the marriage was given as September 3. This should have read October 3.

Course for Guide Officers

A course for guide officers, open to the local militiamen and others, will begin at Work Point barracks in a few weeks' time under the charge of Captain Hughes, Lieutenant Wright and other officers. The course will include lessons in sketching, topography and reconnaissance, and is the first of the kind ever given in British Columbia.

German Congregation

The German congregation listened to a much appreciated service in their neat little church on Mears street on Sunday. The music was provided by Mrs. Papke, and some good old German hymns were sung. As there is a lot of new comers here they are glad to hear their mother tongue. Services will be held on October 20 at 7:30 p. m. Rev. Mr. Kilean was the guest of Mr. Herburger, the treasurer, 66 Chambers street.

Orange Grand Master

Provincial Grand Master D. C. McLaren of Vancouver is in the city, and last evening addressed Lodge No. 1421, Loyal Orange association, in the A. O. U. W. hall. Mr. McLaren has inspected the lodges of the lower mainland and Vancouver Island. He reports that they are all in good shape, adding to their membership and efficiency. He commended the local lodge for its good showing.

Has Narrow Escape

E. Guns, while driving a team of horses attached to a wagon, near the corner of Oak Bay avenue and Belmont street, on Saturday afternoon last, was injured slightly in a collision with a tramcar. The rig came out of Belmont avenue, and before the driver noticed it a tramcar, which was approaching, struck the wagon near the rear wheel, throwing Mr. Guns from his seat, fortunately injuring him but little. The car was not injured, but the wagon was smashed to pieces.

Injured While Driving

An accident which it is feared will prove a serious one occurred to Mrs. J. W. Wriglesworth of this city on Sunday afternoon. While driving in the country something went wrong with the traces which frightened the horses. In the effort to control them, Mrs. Wriglesworth was dragged from the vehicle and thrown upon the ground. An auto was immediately procured, and the unfortunate woman was conveyed to the Royal Jubilee hospital, where it was found that she had suffered internal injuries.

THE WEATHER

Meteorological office, Victoria, B. C., at 8 p. m., October 7.

SYNOPSIS

An important area of high pressure has developed over the North Pacific slope, and fair weather has been general from Vancouver Island southward to San Francisco with higher temperatures between the ranges; further north rain has fallen at Atlin and Dawson. In the prairie provinces a cold area of considerable force is central in Alberta and western Saskatchewan and a thunderstorm and rainfall occurred at Edmonton.

The height is measured from the level of the lower low water at spring tides. This level corresponds with the datum to which the soundings on the Admiralty chart of Victoria harbor are referred, as closely as can now be ascertained.
 The time used is Pacific Standard, for the 120th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for height serve to distinguish high water from low water.

OPENING SITTING OF COUNTY COURT

Abe Drosdovitch is in Litigation Again—A Silly Judgment Summons

Abe Drosdovitch, the expressman who figured in a police court case the other day, once more occupied the line light yesterday as defendant in a suit brought against him in the county court by Joseph Sears. It appeared in evidence that Drosdovitch made an arrangement through Mr. Pearson, the real estate agent, with Sears some four years ago, by which Sears agreed to put one coat of paint on the front of his cottage and paper the walls for \$40, and to take his pay from the rent of the house as it was collected. The Drosdovitches, the plaintiff stated, asked an unobtainable rent for the place and after about four months moved into the back part of the house themselves, making the rest unrentable, the result being that he had never received any pay for his work.

Drosdovitch claimed that he was only 25 and so under age when the work was ordered. He also said the job was a bad one, and much to the amusement of the audience, tried to make his honor believe that Sears had made such a bad job of the painting and painting that the city threatened to pull down the house. In cross-examination Drosdovitch accounted for 26 years of his life, although he still maintained that he was only 25. The evidence showed, however, that the house was in very bad condition and needed the repairs badly, and Judge Lampman held that even if he were under age that the work was a necessity. He gave judgment for the plaintiff with costs. Mr. Weston appeared for the plaintiff, Drosdovitch defending himself.

In Black vs. Wood, a suit to recover \$15 for the construction of a punt, his honor gave judgment for the defendant without calling on him to put in a defense, holding that the plaintiff's own case showed that he had not built the craft according to specifications.

Prior to the cases being heard leave to issue twenty-seven certificates of naturalization was granted, twenty-three of them being for Chinamen.

There were also several judgment summons heard, one of which Judge Lampman described as silly, and said should never have been issued. The defendant was a Saanich farmer of the name of Wetmore, the creditor being a Vancouver wholesale firm. It seems that Wetmore failed in business some time ago and that he then borrowed money to start farming, leasing a place belonging to W. Young. He testified that he had lost his crop both last year and this, the first time on account of a freshet and this year on account of drought, and that his cows and poultry only produced sufficient to pay the rent and leave about \$20 a month over on which he had to supply the needs of his family and pay the interest on a \$1,200 mortgage on his stock. The man had been summoned before and his honor spoke very strongly of the action of the creditors in putting the defendant to the expense of coming into town when there were no new facts to be elicited. Accordingly not only had the plaintiff to pay the costs of the summons, but his honor ordered that \$3.50 be deducted from the amount of the judgment to compensate Wetmore for his expenses and loss of time.

SEPTEMBER IS RECORD MONTH

Timber Licenses and Revenue From Them Largest in History

Eclipsing the record of every other month prior to it, September saw 1,071 timber licenses issued by the provincial department of lands and works. The fees for the above amounted to \$143,102.20. The heaviest month prior to September was May of the present year when fees amounted to \$120,920.36.

The provincial officials state that this is the heaviest month ever known in British Columbia. Of the total number of licenses 732 were issued for properties west of the Cascades and of these the greatest number were for properties on Vancouver Island. Prior to last year by far the greatest number of licenses issued were for timber lying east of the Cascades and the movement is significant. For transfer fees \$964 was collected.

But seven licenses were issued for coal properties, the fees amounting to \$700. More applications have been made for coal licenses during the present month.

JUDGE IRVING'S WIRE MANGLED IN SENDING

Mr. Justice Martin Not in Receipt of Definite Instructions Really Sent

It now transpires that the hitch which occurred last week over the assignment of a judge to the local court for last week was due to a mistake made by the telegraph company in transmitting a telegram of instructions sent by Mr. Justice Irving to Mr. Justice Martin. It will be remembered that there was no judge available on October 1, although Judge Martin was in Victoria and two cases were set for trial, the lawyers, principals and witnesses being in attendance to no purpose.

Under the rule the Chief Justice, or in his absence from the province, the chief justice judge, has to assign the judges to their work. So the chief justice being absent this duty devolved upon Mr. Justice Irving. His lordship until the last moment expected that the chief justice would be back in time to make the assignments, but when he found he would not be wired Mr. Justice Martin, but the telegraph company, by substituting the word "trust" for "instant," made the message merely an expression of hope, which Judge Martin did not think amounted to a legal assignment under the rule. The telegram as sent by Mr. Justice Irving has already been published, and the message as actually received by Mr. Justice Martin is reproduced now for the first time:

"Hon. Mr. Martin, Victoria, B. C.
Learned today that chief justice would be back till 5th. Trust you will take Victoria business this week. If you desire it will send formal request. P. A. E. IRVING."

Nothing is so admired as a good head of hair, says Dr. B. F. Crisston, the celebrated dermatologist of Paris. Gray Hair Elixir, one of his famous French toilet articles makes the hair grow, cures dandruff, stops the hair falling out, returns its brightness, also returns gray hair to its natural color. Andra Oil will remove wrinkles, small-pox pits, liver spots, yellowness of skin, will make old faces look young again. Dermatitis remover, pimples, black heads, oily skin, salt rheum, coarse pores, eczema. Obesital external, sure cure for Obesity Hair Destroyer, kills the hair bulbs, ends your superfluous hair. Hours 11 a.m. to 8 p.m., Mrs. Winch, 129 Cormorant street.

A Sure Sign—When you hold your "Colonist" more than a foot from your eyes in order to read something is wrong. You should consult a reliable optician. Look up A. P. Blyth, the optician of Fort street (near Douglas).

Canadian Customs Tariff for 1907.—Victoria Book and Stationery Co., Limited.

MINING INDUSTRY IS GOING AHEAD

Provincial Mineralogist Says Prospects Are Particularly Good

W. Fleet Robertson, the provincial mineralogist, has returned from a trip to the west coast of Vancouver Island and the Queen Charlotte Islands group. He went as far north as Rainy Hollow on the Chilcotine river, inspecting the various copper and other properties which are being opened up. Mr. Robertson reports everything in a very satisfactory condition. The prospects of development are especially good in the Queen Charlotte group. The islands are full of prospectors who are actively examining the country and striking mineral. It is expected that this winter will see a heavy influx of prospectors from the upper mainland as they can work all winter under the weather conditions which prevail there. Living is comparatively cheap as there are plenty of fish. Strange to say there is not a deer, a wolf, rabbit or even a squirrel on the islands, though there are any number of bears.

The Japanese mining on Moresby Island are doing well and have shipped considerable quantities of ore. Several bonds have been taken up on other properties and the near future will see a good deal of development work.

At Rainy Hollow in the Atlin district two or three English outfits have taken heavy bonds on properties and work will probably shortly be commenced.

Mr. Robertson spent but a few days on the west coast but he reports that there is considerable work being done on the various properties and that the woods are full of prospectors and timber cruisers. He inspected a number of the local properties also.

SUCCESSFUL TRIP TO HAPPY LAND

Committee of Ladies Has Been Appointed and Rehearsals Started

The production of "A Trip to Happy Land," composed and to be put on the boards by James W. Evans with the assistance of the amateurs of Victoria, seems assured of success. The ladies have taken up the idea enthusiastically, and the funds at the disposal of the Tourist association will be correspondingly swelled. Nearly twenty-five members of the fair sex met at the Tourist rooms, on Fort street, yesterday afternoon to confer with Mr. Evans as to the production of the play. Everything passed off without a hitch and although the parts are not as yet definitely assigned there will be no lack of talent from which to draw. Mrs. Charles Rhodes took the chair at the meeting, Mrs. H. Kent officiating as secretary, and a committee consisting of the following ladies was chosen to see the venture through to a successful conclusion: Mrs. Charles Rhodes, Mrs. Dave Rogers, Mrs. C. V. J. Spratt, Mrs. Simpson and Mrs. R. S. McMicking.

"A Trip to Happy Land" is a musical farce, which has been produced with much fun and amusement by those who know the piece. The libretto was written by Mr. Evans, some of the music being adapted and some composed by the author. The scene is laid in modern times, so there will be no great problem of expensive costumes. Most of what will be needed will in the natural course of things be already owned by the actresses or actors, while Mr. Evans is going to take care of the rest.

There will be sixty persons in the play which has about twenty speaking parts. Twenty-five of the characters will be ladies and twenty-five men, the remaining ten places being filled by children.

As there is a great deal to do, the rehearsals will begin immediately. There was a preliminary one held last night at 8 o'clock at the A.O.U.W. hall, and a full rehearsal will be held in the same place this evening at the same hour, at which everyone who is going to take part should be present. Rehearsals will be held every night between now and the date of production. The play will be given twice, on October 23 and 24, by which time Mr. Evans guarantees to have everything going like clockwork. The names of those cast for character parts will be announced later on after a few rehearsals have been held.

Among those who attended the meeting yesterday afternoon were Mrs. Charles Rhodes, Mrs. Dave Rogers, Mrs. C. V. J. Spratt, Mrs. Simpson, Mrs. R. S. McMicking, Mrs. H. Kent, Mrs. Courtenay, Mrs. Cameron, Mrs. T. Watson, Mrs. and the Misses Lusk, Mrs. N. B. Shaw, Mrs. Erb, Miss Lillian Clarke, Miss Edith Reade, Miss Noel Moresby, the Misses Blackwood, Miss Ida Foot, Miss Bonter, Miss E. Langstaffe Hall, Miss Anna McQuade and Miss Muriel Hall.

OBJECTS TO PAYING HIS CHINAMAN'S TAX

George Blizard Successfully Blocks Attempt to Make Him Settle

C. L. BETTERTON GETS HIS FORESHORE LEASE

Dominion Government Grants Extensive Rights on Waterfront at Thetis Cove

George Blizard was summoned before the provincial police court yesterday morning on the charge of not having paid the provincial head tax either for himself or for a Chinaman said to be in his employ. It developed during the hearing that there was a good deal of feeling between the defendant and the revenue collector, Robert Carter, who caused the summons to be issued. The defendant said that he was going to press the matter elsewhere.

Mr. Blizard, who was not represented by counsel, said he had no objections to paying his own revenue but objected to paying that of a Chinaman who was not regularly in his employ, and apparently thought that because the notice sent him was for both that he could not settle for the one. As it appeared that the Chinaman in question was only a casual man about Mr. Blizard's place, doing as a rule one, and never more than two days' work a week, Magistrate Jay decided that he could not be made to pay the Oriental's obligations, and the summons was dismissed. His own tax he was ordered to pay.

SMALLPOX OUTBREAK OCCURS AT PHOENIX

Four Cases of Mild Type Are Reported From the Mining Town

The provincial health department has been notified of an outbreak of smallpox at Phoenix and Dr. Fagan, who has been spending a holiday at Tranquille, has left for the scene. Four cases of a mild form are reported.

The district health officer, Dr. Spink, has taken steps to isolate the cases and remedies and vaccine points have been forwarded from here.

British Columbia has been remarkably free from the ravages of smallpox largely through the strict inspection and preventative measures which have been taken by the officials of the government. Though smallpox is epidemic in Washington and Oregon, throughout the summer, the present is the first case reported in the province for many months.

ST. GEORGE'S BAKING POWDER

They all say the same about St. George's Baking Powder

"Dozens of my best customers have put St. George's to the test."

"They have tried it for Biscuits and Doughnuts—for Cakes and Pies—for Muffins and Pancakes."

"And they agree that St. George's can be depended on—that when they do their share of the baking right, St. George's makes the lightest, whitest, tastiest pastry and cakes and biscuits—in a word, that it is the best Baking Powder they ever used."

"And my customers are pretty fastidious people, too."

You will find our new Cook Book a ready help every day. It contains all sorts of recipes and useful hints for Good Cooking. Write for a free copy. National Drug & Chemical Co. of Canada, Limited, Montreal.

In Woman's Realm

In devoting more space than formerly to the affairs of women, the Colonist is taking a step, which it is hoped our lady friends will appreciate. Any communication from them of general interest will be welcome and carefully attended to.

HERE AND THERE

The problem of what they can give the child for lunch at school is one that sometimes causes mothers a good deal of thought. It is a question often whether it does them less harm to take a long and hurried walk in order to share the family dinner or eat a cold lunch on the school premises. A high school teacher writing in Harper's Bazaar from Charleston, W. Va., says that it has been found possible to supply as small a number as eighty-five pupils with hot lunches and to pay the expenses. The school board in this case supplied the room and furnished the gas for cooking.

There are very few things which great ladies and gentlemen will not do to enjoy a new sensation. One of the highest, if not the proudest, of England's aristocracy, Lady Arthur Grosvenor, descended from the dukes of Westminster, has with her husband been traveling about England in a Gypsy van all summer. Nor is it any make-believe except from the fact that they are not Gypsies. They live on Gypsy fare and encounter all the discomforts of Gypsy life, even to the extent of being taken for horse thieves and ordered off the premises of respectable farmers. Lady Grosvenor expresses herself as delighted with her novel experience and declared to a French newspaper correspondent who had met her in the district, that she was looking forward to traveling the French provinces in the same manner next year.

The Chicago Inter-Ocean, speaking of the writers of the day, says: "What the average modern writer, like the average modern preacher, most needs is not a style, but a message—is not a hearing nor a training, but a conviction that makes him unable to be silent, and a thought that so appeals to the souls of men that it commands their attention."

Everywhere one sees evidences of change and growth in Victoria. In the churches strangers fill many of the pews. On the streets old Victorians everywhere meet unfamiliar faces, and in some parts of the town there are rows of new homes. Among the late arrivals, there are, it is said, a large number of people who do not like the publicity of hotel life, but who have yet found it convenient to take up housekeeping on their own account. These people desire to enjoy some of the freedom and comforts of home life at a moderate cost. If they have little children they would like them to have a chance to amuse themselves without trespassing on the rights of others. For obvious reasons the ordinary first-class private boarding house could not entertain this class. It may be that with the increased cost of living and the high rate of domestic wages it would be impossible to provide comfortable rooms, wholesome meals and some outside space for play or exercise at any rate which could be called moderate. Yet, when it is considered that there are, in this city, many large families who live quite comfortably on incomes by no means large, some such project might be deemed feasible.

WOMAN'S WORK

The entertainment at the W.C.T.U. mission on Yates street on Saturday was well attended. The Epworth League of the Metropolitan Methodist Church were the entertainers and Mr. Smith occupied the chair. The following programme was well rendered: Recitation Miss Hocking Piano Duet Miss Barker and Mrs. Parkendale Vocal Solo Miss Crocker Reading Mr. Smith Piano Solo Miss Bessie Wells Solo Mr. Foster Recitation Mr. Sanderson Recitation Mrs. Symons The Perseverance Lodge, L.O.G.T., will furnish entertainment for next Saturday evening.

Miss Burris, who entered upon her duties in Victoria College yesterday, will be an acquisition to the staff of that institution. In Nanaimo, where Miss Burris has been teaching in the High School for the past three years, she was not only beloved by her pupils but esteemed by them as a teacher who had a thorough knowledge of her subject and great skill in imparting it.

Miss Thompson of the Young Women's Christian association, reports that there have been an unusually large number of girls at the rooms lately who have recently arrived in the city and are anxious to obtain employment.

Same style in Elk brand is Carmona.
Demand the Brand Makers Berlin

The monthly meeting of the ladies' committee of management of the British Columbia Orphans' Home was held at the home yesterday afternoon. The usual routine business was attended to and bills ordered paid to the amount of \$81.25.

There were present Mrs. McTavish, the president, in the chair; Messames Felt, Shakespear, Bishop, Munroe, Ricard, Todd, Toller, Croft, Higgins, Scowcroft, Sprague and Bertridge. The list of donations was read and a hearty vote of thanks passed to the generous donors.

A vote of thanks was given to J. S. H. Matson for his kindness in printing the circular letter of appeal sent to friends in the outlying districts for vegetables and fruit, on behalf of the Orphanage, and also to those friends who so generously responded to the said appeal. The following interesting report was read from the home committee for September.

Madam President and Ladies—We have duly visited the home each week during the past month, and submit our report, having found the children in good health and well cared for.

The happiest event to the children has, of course, been their visit to the exhibition on the Friday of last week, for which our matron had been very busy in making arrangements of food things to eat in order that a long day might be spent amidst so many exciting and beautiful exhibitions. Twenty-five children left the home under Mrs. Kay's care early in the morning, and we are sure that as a committee, we owe the Worshipful Mayor Morley a vote of hearty thanks, for so kindly meeting and generously treating the children by seeing that every little one was supplied with funds with which to invest in some delight.

We have to report a very trying Sunday morning for our matron and her assistants, when the boiler pipes broke, flooding the floor. Mr. Scowcroft kindly responded to the appeal for help, by sending someone competent to stop the leakage temporarily, which brings before us the decision arrived at that new boilers are needed at an early date. As the winter is now near, we would specially draw your attention to the following very necessary improvements in the house. We are all aware of the serious and needless exposure to the weather experienced by those who have to attend to the furnace, from the fact that there is means of reaching it from the house, as the expense would not be heavy, we would suggest that a stairway be made from the house to the furnace basement, as soon as possible, in order to be ready for the starting of the furnace in a short time.

The long needed wooden wash-basin, which has been used by the children as a means of reaching it from the house, as the expense would not be heavy, we would suggest that a stairway be made from the house to the furnace basement, as soon as possible, in order to be ready for the starting of the furnace in a short time. The long needed wooden wash-basin, which has been used by the children as a means of reaching it from the house, as the expense would not be heavy, we would suggest that a stairway be made from the house to the furnace basement, as soon as possible, in order to be ready for the starting of the furnace in a short time.

We would again urge immediate attention to the stairs which are in a very dangerous condition from splinters and suggest that they be rubber-tipped without further delay, or we may have to regret some unpleasant accidents to the little feet which are so constantly going up and down there. We must mention the splendid gifts of fruit, vegetables, etc., which have arrived at the orphanage, from Salt Spring Island, and the donation of the whole of the Cowichan exhibit, which elicited such exclamations of wonder and praise at the exhibition. We only wish those who are doubtful as to the fruit growing powers of British Columbia could see these enormous and magnificent apples, pears, squashes, citrons, etc., which are now to be enjoyed by our large family of the Protestant and Catholic children, and the generosity of the exhibitors.

The donations for September were as follows: Mrs. Heisterman, 4 sacks peas; Mr. Robillard, per Johnnie, 1 box of cakes; Bobbie and Joe, per Mrs. Bond, 1 large squash; A Friend, sack of toys; Mrs. Kenneth McKenzie, Gorge road, 4 sacks pears; Mrs. Parsons, Burnside road, 2 boxes pears; Mrs. C. F. Todd, pears and clothing; Mrs. C. and Mrs. Ed. pears; A Friend, 2 sacks plums; Mr. Forrest Angus, 2 sacks apples; Mr. Heatherbell, 3 large boxes plums and apples; Mrs. Nelson, Cobble Hill, 4 sacks Snow Flake flour; Fell & Co., large box of ginger snaps; Mr. Dunal, Metochin, 1 sack mixed vegetables; Mayor Morley, pears and cash to 25 children; Misses 1 sack C. F. Todd, pears; Mr. and Mrs. Beyer, 2 sacks plums P. C. Fernie, 2 sacks potatoes, half sack onions; Ist and Agricultural association, per Mr. Mansell, 7 large boxes fruit and vegetables; Cowichan exhibit, a large quantity of vegetables, pears and apples; fruit and vegetables from William Noble, Latrell, Sisa, Henry Heisterman, A. G. Tait, W. H. Smart, Mrs. J. T. Harrison, R. H. Wenn; First Congregational church, per Mr. Sprague, fruit and vegetables; Times and Colonist, daily papers; Mrs. L. Gould, \$1.

TRIED RECIPES

Indian Pancake

Four eggs, half a pound of rice, one pint of milk, four ounces of sugar, cinnamon or mace, butter for frying. Preserved fruits of any kind.

Boil the rice in the milk, beat the eggs into it, add the sugar and flavoring. Form into a pancake and fry on one side in the butter. Turn out carefully on a plate and garnish with jam or preserved fruits.

Bricolets Suisses

One pound of flour, half a pound of sugar, half a pound of butter, two eggs, grated lemon-peel.

Knead all together into a stiff paste and divide into little balls. Put into buttered gauding irons and hold for a minute or less over a bright fire. Detach with a knife.

Graham Muffins.

One egg, heaping tablespoon butter, one and a half cups milk, little salt, one teaspoon baking powder, Graham flour to stiffen. Put in slightly heated gem tins and bake.

PERSONAL MENTION

The Colonist readers are asked to assist in making this personal column as complete as possible. Send or phone items to the city editor.

Among the guests at the Balmoral are Mrs. R. J. Roberts, of Kuper Island, and her daughter-in-law, Mrs. Nixon, of Thetis Island. They are spending a few days in the city.

Miss Ethel Butler returned from Vancouver Saturday evening, after spending two months visiting friends.

John W. Cockburn, president of the Ladysmith Lumber company, was in the city yesterday, coming down on the Charnier from Vancouver, where he has been in business. He went up the E. & N. line in the afternoon.

J. A. Knox, of Revelstoke, chief tie inspector of the western division of the C. P. R., is a guest at the Dominion hotel.

F. P. Popp, of Seattle, connected with the New Washington Annex, is staying at the Dominion hotel.

Mrs. W. J. Roper, of Cherry Creek, arrived in the city on Sunday night, and is staying at the Balmoral.

Mrs. W. T. Smyth and daughter, of Toronto, who will make a prolonged visit in the city, are guests at the Dominion hotel.

Mrs. J. W. Britton and Miss Bella Britton, of this city, are the guests of Mrs. R. Boudry, 20 Sullivan street, Toronto.

Miss Burris, recently appointed to the teaching staff of the High school, is staying at the Balmoral hotel.

John A. Humbard, president of the Victoria Lumber and Manufacturing company, and E. J. Palmer, manager, left yesterday by the North Coast Limited for St. Paul.

Mrs. W. A. Morley, who has been visiting in this city has returned to her home in Spokane.

Mr. Ikeda, manager of the Japanese company which is operating on Moresby Island with Katsuni Hidano, secretary of the Aways Ikeda Co., Ltd., is in the city.

CHILDREN'S DRESS

Particular attention must be given to the dress lengths for small children. It is a very easy matter to spoil the charm of a dear little frock by having the skirt an improper length. The correct length is just to the knee. The widespread popularity of the one-piece box pattern for children continues unabated. There is, however, a general tendency to modify these by the use of yokes and applied trimmings.

No garment is more essential to a small girl's toilet than the gimp with sleeves. She should, as a matter of fact, be supplied with at least three of these—one somewhat plain, for ordinary wear; another for semi-dress occasions, and the third of lace for extra-ordinary needs. With three such garments the mother will be relieved of much perplexity concerning her small daughter's wardrobe.

All kinds of children's dresses are being developed with the Dutch neck. From the plain gingham to the elaborate lingerie the fashion is carried out in endless variety of treatment. The useful refer coats are no longer confined to boys' wear. They are shown for girls, developed in serge and cheviot, with velvet or collars made of the same material. They are fastened with flat pearl buttons.

A number of one-piece pinafores are being shown for children. In these the top and sleeves of the garment are all one piece, the only seam being under the arm. The pattern, which is unique, can be finished with a sash across the back.

The newest models in the boys' Russian blouses are made to slip over the head, and sleeves of the garment are all one piece, the only seam being under the arm. The pattern, which is unique, can be finished with a sash across the back.

Girls' sailor suits in Chambray, with striped French galatea collar and cuffs, will be worn all winter. They are nearly always edged with three rows of white head, silk tie, emblem on sleeve and plaited skirt.

The new bonnets for the child from 6 months to 2 years are extremely attractive. They are all white, sheer, fine goods, in daintily flowered design and in lace embroidery. Some of them are on the sun-bonnet order, and others are Grethens or Dutch style. The latter look quite elaborate, but can easily be taken apart and washed.

Many of the entire dresses for young girls will be made to be worn with pretty, stiff turnover collars and dear little ties of vivid colorings. Just Think Of It On a railway journey Mrs. —, the wife of an M.P., discovered that her umbrella, which had been entrusted to the care of her husband, was missing. "Where's my umbrella?" she demanded. "I'm afraid I've forgotten it, my dear," meekly answered the M.P.; "it must still be in the train." "In the train!" snorted the lady. "And to think that the affairs of the nation are entrusted to a man who doesn't know enough to take care of a woman's umbrella!"—Sketch.

Hits from the October list of Edison Gold Moulded Records

I'm in love with the slide Trombone, song by Ada Jones. That's Gratitude (new laughable coon song), Bob Roberts. Flannigan at Vocal Teachers (talking), by Steve Porter. Velvet of the Rose waltz, Edison Symphony Orch.

Will You be My Teddy Bear? (Anna Held's big song hit). Duet Siamese Patrol, Ed. Military band. Medley of Straight Jigs, (accordion solo), by J. Kimmble. Dixie Minstrels, Edison minstrels.

COLORADO BOXER TO FIGHT JOHNSON

Jim Flynn Will Tackle Colored Man at 'Frisco This Month

San Francisco, Oct. 7.—Jack Johnson vs. Jim Flynn of Colorado is the card that Jim Croffoth will offer at the Mission street arena Saturday afternoon, October 26. Word was received from Sam Fitzpatrick, Johnson's manager, accepting the match, and the colored heavyweight will leave the east at once for San Francisco. The match is a good one. Johnson has received a world of notice during the last year throughout the country and whether or not he defeats Flynn will be an important factor in deciding the next heavyweight battle for the championship of the world, held by Tommy Burns.

Flynn originally sought a match with Jack (Twin) Sullivan, but when the twin was backward, the Colorado man, who is under the management of Frank McDonald, said that he would fight Johnson.

"Will you fight Johnson?" asked Croffoth.

"Sure," was the answer from the scrapper who is one of the few not dodging Jack. Croffoth then wired Charles Harvey, his New York representative, asking him to find out if it would suit Johnson. The reply came in the shape of a wire stating that Fitzpatrick was agreed.

When this word came, Croffoth immediately threw over his plan of matching Sullivan and Flynn. Jack Twin promised to show up at the Willis last night at 9 o'clock to talk over the match, but was not on hand. Earlier in the day Sullivan met McDonald and told him that he would be willing to fight Flynn if the contest took place in Los Angeles, where he is known that McCarey wired Sullivan suggesting the match, but McDonald, who is well acquainted with the actual size of Los Angeles houses, demurred.

This match may provide another contest for Croffoth. It is no secret that he has been trying to bring Burns and Johnson together for Thanksgiving day, and he will doubtless bend his energies toward matching the winner of the Flynn-Johnson match with Burns for the afternoon of turkey day. If either man wins in decisive style, and especially should Johnson prove the victor, public sentiment will probably force Burns into signing articles, unless he should go to London to fight Gunner Moir.

Croffoth was asked last night if he would stage such a fight for Thanksgiving, after which he replied that he had always planned that. He would hold such a fight, however, in the afternoon, and not in the forenoon, as planned by Gleason for Thomas and Ketchel.

Jim Flynn is not particularly famed as a boxer, but depends on forcing the issue. He has had three fights with Jack (Twin) Sullivan, two of which resulted in draws and one a decision for Flynn. He was knocked out by Tommy Burns in Los Angeles, but claims that he was not in the best of condition.

McDonald does not claim that Flynn can outpoint Johnson, but rather that he can outgame him and finally beat him down.

Shrubbs-Marsh Race Off

Toronto, Oct. 7.—The race between Alfred Shrubbs and John D. Marsh, which was to have been held in Winnipeg October 12, has been called off as Shrubbs thinks the season is late. Shrubbs will race in Fall River, Mass., Saturday.

Take Football Trouble to Court

Winnipeg, Oct. 7.—Although the football season, to all intents and purposes, closed and the last game for any and every honor been played, there is still much interest taken in regard to the awarding of the senior championship for 1907 to Minnedosa. The Celtics have decided that the protest committee did wrong in turning them down for playing Jones as ineligible for having played with the Welsh against the Redwoods on June 19. They feel that the protest committee were wrong in their decision, and have decided to take the matter to court and have it investigated. Should they prove successful in this it will then be up to the Bell cup protest committee to see that they are awarded that trophy which the Brits won on protest.

WILL ORGANIZE CLUB TOMORROW

Victoria Uniteds Will Come to Life Again This Season

It will be definitely decided tomorrow evening whether or not the Victoria United Football club will be re-organized in the Victoria district football league. The meeting of the supporters of the club has been called and will be held in the Y. M. C. A. at 8 o'clock sharp. Although, owing to some misunderstanding this club season it is very probable that hereafter the club will be represented by a very strong aggregation. Several members of the club who have controlled the destinies of the club in years past have signified their intention of being present. In addition to these, several newcomers to the city are expected to be on hand, and taken together the outlook for a successful season is very promising.

Those who have undertaken to re-organize the club have taken time by the forelock and have registered no less than twenty-four players. With this number to select from it is expected that the presence of the Victoria United team will be considerably felt before the season closes. Now that the players are registered with the association it will be possible to choose a team to represent the club in their match next Saturday against the J. B. A. A. without endangering their standing. Although a large number of the supporters of the club have been notified of the meeting, there are many who have been missed, but a cordial welcome will be extended to any player or enthusiast who may care to attend the meeting.

RUGBY PLAYERS PUT UNDER BAN

Toronto Argonaut and Montreal Teams Professionalized by C. A. A. U.

Montreal, Oct. 7.—The first game in the newly formed inter-provincial Rugby football league was played here on Saturday, Montreal defeating the Argonauts of Toronto by a score of 17 to 8.

Every player of the Toronto Argonaut and Montreal football teams of the "big four" provincial football league who played with or against Ernie Russell in the game on Saturday was disqualified by registration committee of the Canadian Amateur Athletic association at a meeting held in Toronto Saturday night. The committee took this action after having satisfied themselves that both teams had disregarded the rulings not only of the Canadian Amateur Athletic union but also of the inter-provincial league in the game here. Russell is claimed to be a professional, having played in a professional hockey league last winter when he was a member of the Wanderers, holders of the Stanley cup.

The schedule of the new league was re-arranged last week and now is as follows:

Oct. 5—Argonauts at Montreal.
Oct. 12—Ottawa at Argonauts; Montreal at Hamilton.
Oct. 19—Argonauts at Hamilton; Montreal at Ottawa.
Oct. 26—Hamilton at Montreal; Argonauts at Ottawa.
Oct. 31—Ottawa at Hamilton; Montreal at Argonauts.
Nov. 2—Hamilton at Ottawa.
Nov. 9—Ottawa at Montreal.
Nov. 16—Hamilton at Argonauts.

NANAIMO HERE ON THANKSGIVING

Victoria Rugby Club to Visit Coal Town Saturday Week

Secretary W. H. P. Sweeney of the Victoria Rugby club yesterday wrote to the Nanaimo Rugby club asking for a date in the coal town for the local team for Saturday, Oct. 19. The Nanaimo club desires a fixture with the Victoria club, and it is thought that the date suggested will be satisfactory. Nanaimo will play a return game here on Thanksgiving day, Thursday, Oct. 21, when the Victoria club and the James Bay rugbyists will combine and pit a picked fifteen against the visitors.

The Victoria players will turn out tonight and Thursday evening at Oak Bay at 5 o'clock for practice. Those players who can get away will participate in afternoon practice on these days as well. While the officers of the club do not show any undue elation over Saturday's win from the James Bay Athletic association team, they are quite satisfied with the showing of the players, considering the limited amount of practice that they have had. Neither team had had a single full practice before the match and the rugged work at times during the game is easily accounted for under the circumstances. As it is, the club officials believe that in the players on the field on Saturday there was the makings of a first class team. Taking the pick of the two teams and giving them the necessary practice, the club leaders declare that no Rugby team on the coast would have any license to beat them.

WORLD'S SERIES BEGINS TODAY

Chicago Nationals and Detroit Americans Meet for Premier Honors

Chicago, Oct. 7.—Details of the world's championship series between the Chicago club, winner of the National league pennant, and the Detroit team, pennant winner in the American league, were arrived at at a meeting of the national commission here. The schedule of games follows:

Tuesday, October 8, Chicago; Wednesday, October 9, Chicago; Thursday, October 10, Detroit; Friday, October 11, Detroit; Saturday, October 12, Detroit; Sunday, October 13, Chicago.

By agreement of the clubs representing the leagues, the rules already existing governing the playing of the championship series were amended so that 60 per cent of the balances from the first four games played shall form a goal for the players of the two teams, 60 per cent of this amount to go to the winning and 40 per cent to the losing team.

The schedule as adopted was determined by lots. If any of the games scheduled are postponed on account of rain or for any cause, the teams are required to play the postponed game on the first day available at the same park. If a seventh game is necessary to decide the series the city in which it is to be played will be decided by the commission. The players eligible to play the championship series were designated as follows:

On the Chicago team—Brown, Chance, Durbin, Evers, Frazers, Hoffman, Howard, Lundgren, Kling, Moran, McCormick, O'Leary, Rossmore, Reulbach, Shreckard, Slagle, Schulte, Steinfeldt, Tinker, Walsh and Zimmerman.

On the Detroit team—Archer, Cobb, Coughlin, Crawford, Donovan, Downes, Jones Jennings, Killian, Lowe, Mullin, McIntyre, Payne, O'Leary, Rossmore, Schmidt, Siever, Schaeffer and Willett.

President Pulliam of the National league selected Henry O'Day as umpire for the National league.

President Johnson, of the American league named John F. Sheridan.

The official scorers selected by the commission were A. J. Flanner and F. C. Richter. The scale of prices for admission to the games was fixed at \$1, \$1.50 and \$2 for Chicago, and \$1, \$1.50 and \$2.50 for Detroit. The reason for the lower prices at Chicago was the large seating capacity of the Chicago park.

The games will be called at 2:30 o'clock in Chicago, and at 2 o'clock in Detroit.

Next Saturday's Fixtures

The Victoria District Football league games schedule for next Saturday are: Victoria vs. Garrison, at Work Point Barracks.
Esquimalt vs. Fifth Regiment, at Oak Bay.
Victoria United vs. James Bay A. A., at Oak Bay.

Boston Americans Win

Boston, Mass., Oct. 7.—The Nationals and Americans of this city began to play in the series of games today. Young's pitching was the deciding factor and the American league team won, 4 to 1. Batteries—Young and Shaw, Needham. Umpires, Connolly and Emille.

Jockey Rides Five Winners

Windsor, Ont., Oct. 7.—Jockey Delahy was the star at Windsor today, riding five winners. There was a heavy rainstorm just before the opening event. The feature was the mile handicap.

Cheque Forger Caught.

Orangeville, Ont., Oct. 7.—Wm. Hanlan, son of a farmer, has been arrested and positively identified as the man who swindled the Bank of Commerce and the Sterling bank here by means of forged cheques.

PENNANT RACES ARE CONCLUDED

Aberdeen Lands Honor in Northwestern—Champion Teams Beaten

The Northwestern Baseball league season wound up on Sunday, and Aberdeen is champion, a doubleheader victory at Vancouver Saturday, while Tacoma was dropping a game to Spokane, giving the Black Cats the honors. Aberdeen did not play on Sunday, while Tacoma could only break even with Spokane in a doubleheader. The scores on Sunday were:

At Tacoma—Tacoma 5, Spokane 2; second game, Tacoma 5, Spokane 0.
At Seattle—Seattle 5, Bette 0, second game, Seattle 3, Bette 4.

The final standing of the league was:

Team	Won	Lost	Pct.
Aberdeen	35	51	.626
Tacoma	30	59	.604
Seattle	33	64	.565
Butte	29	73	.490
Spokane	28	75	.476
Vancouver	34	106	.243

American League

The champion Detroit team of the American league closed the season on Sunday with a double defeat from St. Louis. With the pennant already won, Jennings used two young pitchers and substitute players, the Detroit manager himself playing in the first game. One of the largest crowds of the season saw the two games. At Chicago the White Sox won the last game of the season of 1907 from Cleveland in a contest between Clarkson and White. White had excellent support

and Chicago bunched hits. The scores were:

At St. Louis: R. H. E.
First game—St. Louis 3, Chicago 1, 10 17 2
St. Louis 3, 0 0 0 1 0 0 0—4 11 4
Batteries—Bailey and Stephens; B. Jones and Payne.
Second game—R. H. E.
St. Louis 0 0 2 3 1 0 4 0—10 13 2
Detroit 3 0 0 0 0 0 0 0—3 9 4
Batteries—Howell and Spencer; Mallory and Spayne.
At Chicago: R. H. E.
Chicago 4 0 0 0 0 0 0 0—9 9 0
Cleveland 2 1 1 3
Batteries—White, Isbell and Sullivan; Clarkson and Bemis.

The final standing of the league was as follows:

Team	Won	Lost	Pct.
Detroit	32	58	.613
Philadelphia	38	56	.611
Chicago	37	65	.572
Cleveland	38	67	.562
New York	70	78	.473
St. Louis	69	83	.454
Boston	59	90	.393
Washington	49	102	.325

National League

The Chicago National league champions also wound up the season on Sunday with a defeat. The St. Louis Nationals broke even with the Cubs in the last games of the 1907 season, Chicago winning the first game and St. Louis the second. In the second game one man on either side was left on bases. Hoffman was injured in the second and was forced to retire. Cincinnati and Pittsburgh closed the season at Cincinnati Sunday by splitting even on a doubleheader. Errors by Huggins, Mowery and Kruger gave the visitors four runs in the first game and a victory. The second game was a heavy hitting affair, on the part of the locals, who hit Adams for a total of 26 bases on 16 safe drives in six innings. Scores:

At Chicago: R. H. E.
First game—St. Louis 0 0 0 1 0 0 0 0—1 7 0
Chicago 0 0 1 0 1 2 0 0—3 7 11 3
Batteries—Promine and Noonan; Reulbach and Moran.

Second game—R. H. E.
St. Louis 0 0 0 0 0 0 1 0—1 2 1
Chicago 0 0 0 0 0 0 0 0—0 3 5
Batteries—Raymond and Marshall; Lundgren and Moran.

At Cincinnati: R. H. E.
First game—Cincinnati 0 3 0 0 0 0 0 0—3 4 3
Pittsburgh 0 1 1 0 0 0 2 0—4 8 2
Batteries—Spade and Schell; Lefield and Phelps.

Second game—R. H. E.
Cincinnati 2 2 1 0 1 7 *—13 16 1
Pittsburgh 0 0 1 0 0 0 0—1 8 2
Batteries—Campbell and McLean; Adams and Kelsey.

The final standing of the league was:

Team	Won	Lost	Pct.
Chicago	107	45	.704
Pittsburgh	91	63	.591
Philadelphia	83	64	.566
New York	82	71	.536
Brooklyn	65	83	.439
Cincinnati	66	87	.431
Boston	58	90	.392
St. Louis	52	101	.340

St. Louis Nationals Win.

St. Louis, Mo., Oct. 7.—The first game of the post-season series between the St. Louis National and American league teams resulted in a victory for the National team today. Score, Nationals 6; American 1. Batteries—Luster and Marshall; Glade and Spencer.

ONTARIO BANK CASE.

Suit to Recover Money Paid for Shares to Mr. Cockburn.

Toronto, Oct. 7.—Particulars of the claim of the Ontario bank against G. B. R. Cockburn, the former president, which forms the basis of an action for recovery of \$44,349.50, has been filed at Osgoode Hall. The claim states that Mr. Cockburn in March, 1906, purported to transfer 278 shares of Ontario bank held by him to the officers' guarantee fund of the bank, or that the same was done by Charles McGill, general manager, or his agent, who caused to be placed to Cockburn's credit at the Richmond street branch of the bank the sum of \$37,599.50 as payment for said shares. Further, that about Jan. 29, 1906, a similar transaction was effected with regard to fifty shares for \$6,750. The bank sues for repayment of such moneys and for a declaration that Cockburn is still holder of said shares. It regards the alleged purchase as illegal and void because the "officers' guarantee fund" was wholly under control of the board of directors and was their property.

Bad Prairie Fire.

Prohiber, Sask., Oct. 7.—For two days a prairie fire raged south of this town, the sky for twenty miles being illuminated by a lurid glare. Reports are coming in of strenuous efforts to keep the fire from homesteads, in some places the flames having reached garden rails. Stables, wheat and out-houses have been destroyed, but there has been no report of loss of life.

York Loan Creditors.

Toronto, Oct. 7.—Nova Scotia shareholders of the York Loan and Savings Co. have filed claims with Mr. Kappeler, official referee, declaring that they are entitled to rank as first creditors of the defunct concern, because their subscriptions were taken by the company without first obtaining permission of the legislature to operate in Nova Scotia.

Big Game Season

With big game you cannot afford to throw away one shot. The accuracy, reliability and great stopping power of

Dominion Cartridges

have made them the choice of experienced big game hunters. Sold at a "less-than-duty price" and guaranteed by the

Dominion Cartridge Co. Ltd., MONTREAL, 24-07

Full Sized Billiard Table

Lovers of English billiards will be glad to hear that a new full sized English table has just been installed in the Dallas hotel. There are surprisingly few tables of this pattern in the city.

LAW LAUGHS AT CHINAMAN'S LOVE

Cautious Customs Official Foils Leon's Plan to Follow Fair Charming

Despite the entreaties of his friends and the objections of his friends, Leon Wing, son of Loo Gee Wing, one of the wealthiest Chinese merchants of Victoria, resolved to sacrifice home and kindred, and all because of his violent infatuation for a white girl, a former denizen of a Herald street resort.

Determined to leave the city and follow the woman to whose blandishments he had fallen a victim, and who left Victoria a short time ago and was believed by Leon to be in Seattle, the youth attempted to obtain the necessary papers authorizing him to enter the United States. He claimed to be about to cross the boundary as a student for the purpose of attending college. It was the doubts entertained of the bone fides of his story which induced John C. Newbury, collector of customs here, to postpone the issue of the requisite papers, and to communicate with a friend of Loo Gee, who promptly dubbed Leon's desire for education to be but the veriest kind of a bluff. Loo Gee Wing was absent in Vancouver but promptly returned to Victoria and assumed control of his wayward son.

This is not the first time that the susceptible Leon has fallen victim to the charms of a white girl and his refusal to follow the sage advice of his aged parent has ere this landed him in trouble. He once before showed a disposition to run counter to his elders in his choice of female society, and it was only after he had been held a prisoner in his home, and literally refused that he showed any disposition to become amenable to reason. Just how long Leon will be good is the question now agitating his family, but in the meantime it is certain that he will stay on this side of the boundary, unless he can manage to in some manner evade the immigration laws of the Union.

Don't Ruin Your Best Horse Going for a Doctor

Bowel complaints are always more or less prevalent during the Summer months, and many a man has ruined his best horse going for a doctor when some of his family was suffering from cramp colic or cholera morbus. Be prepared for such an emergency.

Chamberlain's Colic, Cholera and Diarrhoea Remedy

Is the most successful medicine yet produced for these diseases and can always be depended upon. No doctor can prescribe a better medicine. It is almost certain to be needed before the Summer is over. Buy it now.

ARE YOU BANKRUPT IN NERVE FORCE

If you spend three dollars a day and earn two you are sure to come to bankruptcy, unless, perchance, some rich friend comes to your assistance.

And yet this is just what thousands of us are doing in regard to our health. By worry, overwork, anxiety or the disobedience of the laws of nature, the energy and vigor of the body is wasted more rapidly than it is built up, and the result is the bankruptcy of the health and the decay of the body.

Dr. Chase's Nerve Food may be likened to the rich friend, for it supplies in condensed and easily assimilated form the very ingredients from which nature constructs nervous energy and builds up the human system.

Sleeplessness, headaches, indigestion, loss of appetite, tired, worn-out feelings, spells of weakness and despondency are some of the symptoms of exhaustion which point to the approach of nervous prostration, locomotor ataxia and paralysis.

Your nervous system must be built up, and this can best be accomplished by use of Dr. Chase's Nerve Food, 50 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

Wash greasy dishes, pots or pans with Lever's Dry Soap a powder. It will remove the grease with the greatest ease. 36

On the Waterfront

TANGO MARU FROM JAPAN

Nippon Yusen Kaisha Liner
Roughest Passage Made
Across the Pacific

DAMAGED BY HURRICANE

Brought 332 Japanese, Including 193 Landed at the Outer Wharves

After one of the roughest passages across the Pacific made since she entered service the Japanese steamer Tango Maru reached port yesterday morning from Yokohama, six days behind her schedule, and sixteen days behind the Japanese port. Of the Japanese coast en route from Kobe to Shimizu to load tea she encountered a typhoon which flooded her decks and buffeted her considerably, and from the time she poked her bow around Nojima light when leaving around bay until when nearing this coast storm after storm was encountered. The tail end of the typhoon was encountered when leaving Yokohama, the steamer being reduced to half speed. A tremendous sea, the aftermath of the typhoon, was running, and the weather began to freshen day after day, the weather gradually improved, although it remained almost to Carmanah point of that description which the sailor calls "dirty."

The Tango Maru brought 4,615 tons of general cargo, including 32,000 boxes of tea, and a large silk shipment, as well as much, mutton, considerable curios, porcelain and general freight. Here 378 tons of general merchandise was discharged.

The Tango brought 471 passengers, 410 of these, 322 of whom were Japanese, 132 Chinese and 33 Russians, most of the latter being picturesque bewhiskered men with long beards, velvet trousers and gaudy smocks. There were 3 Hindus. Of these 139 Japanese were booked to Seattle, the others debarking here.

The saloon passengers, 38 in number, included 21 Japanese, mostly of the merchant and student class. Among the second class passengers was M. Murayama, who comes from Japan to act as manager of the Awaikawa copper mines, on Ikeda bay, Queen Charlotte Islands. Here he was joined by his wife and child. He stated that the deal for the sale of the mine to the Furukawa family has not yet been completed.

The arrivals by the Tango Maru included J. White, vice-consul of the United States at Bangkok, Siam; Mr. Stein, an insurance agent from Honolulu, Indo China, and wife and child; Mr. Williams, a member of the United States legation at Peking, China, wife and family; Mrs. A. Morton, who has been traveling around the world, and whose husband is in Japan, bound north to Philadelphia; Mr. and Mrs. Carter; Mr. M. Telford; E. Abbott, a Seattle man, who has been traveling in Japan; Mrs. E. Eldridge, a resident of Yokohama, and Mr. and Mrs. A. Grow.

Choices is racing at Kobe, Moji and Osaka, and steamers are being delayed in consequence at quarantine stations on the Japanese coast. The Tango Maru instead of calling at Moji as usual passed on through the Shimoda straits without calling, and took her fuel from lighters at Yokohama. There were no cases of cholera when the steamer sailed. The epidemic was abating at Shanghai.

From Shanghai news was brought of heavy loss of life occasioned by the sinking of a junk in the Yangtze-kang by the tender Alexandra which collided with the sailing craft while taking passengers to the Pacific Mail steamer Manchuria. The junk, which was anchored in the fairway without lights, sank immediately and although the tender put back, none of those on board were saved.

C. L. Anderson, of Jardine & Matheson's Yokohama office, committed suicide by jumping from the Japanese liner Rikun Maru between Yokohama and Kobe shortly before the Tango sailed.

The steamer City of Puebla reached port on Sunday from San Francisco, with 119 passengers and 1,541 tons of general freight, 36 tons of which was for this port.

The steamer Barkston, which sailed at Comox with a cargo of grain from the sound on board, passed out for Hongkong on Sunday.

THE CHARM OF BEAUTY

Nothing of More Value to Women

No weak woman can be happy or enjoy half the pleasures of life. Pale cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up.

What the weak woman needs is Ferrozone; it renews, restores and vitalizes instantly—it's a "woman's remedy"—that's why.

Ferrozone makes women strong, plump and healthful because it contains lots of nutriment, the kind that forms muscle, sinew, bone and nerve.

Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. To look well to feel well, to enjoy the unlimited advantages of robust, bounding health use Ferrozone; sold by all dealers in 50c boxes, and refuse a substitute.

Capt. Hackett Entertains.

The Prince Rupert Empire says: Capt. Hackett of the Quadra entertained a few friends aboard the steamer on Monday evening, September 30. Among those present were Mrs. Du Vernet, Mrs. McIntosh, Mrs. Anderson, Mr. and Mrs. Viereck, Mr. and Mrs. Morrison and Mr. Pethick. Capt. Laprak, well known in this city, who was here last in command of the steamer Rikun Maru of the Nippon Yusen Kaisha line has been transferred to the larger passenger and freight steamer Kaga Maru, which is to leave Yokohama on October 30 for this port. He relieves Capt. Cope, who has been transferred to the Japanese company's steamer Ava Maru on the European run.

NEWINGTON ARRIVES

Little Trawler From Hull Reached William Head Yesterday Morning

The little steam trawler Newington, bought by a Vancouver lumber tug at Hull, England, reached William Head yesterday morning after a passage of 106 days from the British port. The 61 ton vessel, which is to be converted into a tugboat on arrival, made the long voyage without mishap. The Newington, Captain Volkingshorne, left Hull June 23, and made calls at Plymouth, St. Vincent, Montevideo, Colon and Calao. The worst weather of the voyage was encountered in the Bay of Biscay, where for more than two weeks the Newington fought southwesterly gales. The little steamer, which makes about 10 knots, came through the straits of Magellan, where a school of big sharks escorted the trawler for several miles.

PRINCESS ROYAL FROM SKAGWAY

Brought Large Complement of Passengers—Hazelton to Resume Service

The steamer Princess Royal, which reached port yesterday from Skagway via Ketikah, Prince Rupert and Port Essington, brought 258 passengers from the north, among them being Lord and Lady Hindlip, who have been visiting the Upper Stikine in search of big game; Mr. and Mrs. C. P. Reed, who are coming to Victoria to visit after several years spent in the north, and C. D. Butler of Minnesota, who was a guest of Mr. Reed. From Port Essington news was received that the steamer Hazelton, which was partially wrecked at Oliver's riffles had arrived down the Skeena for repairs, and ship carpenters were at work restoring the ripped planking of her hull. It was expected that the steamer would be ready within two weeks to carry freight upriver. The water was rising. The steamer Caledonia, which was recently put into commission, was at Prince Rupert, ready for service, and was preparing to carry cargo as far as Kitikah canyon. According to advices by the Princess Royal from Port Essington, the three steambot disasters on the Skeena this year have caused an enormous advance in freights, and Indians are now charging \$35 per ton for carrying supplies in their canoes as far as Kitikah canyon. The rate from Port Essington to Hazelton is \$150 per ton, which is not unreasonable considering the difficulties to be encountered, but which is prohibitive to the settlers in the Hazelton district.

From Skagway news was received that on September 24 violent earthquake shocks were experienced all over southeastern Alaska and the southern Yukon. The White Horse Star says: "Following the shocks came a report that a new volcano was in active operation a few miles west of Lynn canal, but it is believed that the latter is nothing more than a forest fire."

News was received by the Princess Royal from White Horse that the White Pass & Yukon railway is seeking permission and will apply at the next session of the Dominion parliament for it to build a spur 10 miles distance to the White Horse copper fields, where some promising mines are being opened. Under its charter the railway company is empowered to build spurs for six miles only, and a spur 10 miles long is required. Surveyors are at work on the route of the proposed spur, and the White Pass & Yukon Railway Co. is building bunkers at Skagway large enough to receive 6,000 tons of ore, and it hopes to ship 100 tons a day from White Horse to Skagway. Arrangements have already been made to this end.

WANTS CARNEGIE MEDAL
Secretary of Merchants' Exchange Recommends Award

W. T. Isted, secretary of the Merchants' Exchange at Seattle, has written again to the treasurer of the Carnegie hero fund asking that a Carnegie medal be awarded to Mrs. Minnie Patterson, wife of the late Captain Patterson, who lighted in recognition of her heroism last December, when she journeyed over the arduous Bamfield trail in a storm and was the means of saving Captain Allison and nine men of the bark Coloma by dispatching the government steamer Quadra to take off the shipwrecked men. The heroic act was recommended to the treasurer of the Carnegie hero fund at the time, but nothing was heard from him.

The steamer Tordenskjold passed up to Nanaimo yesterday from San Diego to load coal for San Francisco.

The steamer Gymeric, which is coming from San Francisco to be surveyed, is expected at Esquimalt tomorrow.

The steamer Tees sailed last night for Clayoquot and way ports.

NARROW ESCAPE FROM DROWNING

Trying Experience of Four Seamen of Steamer Cascade at Port San Juan

The steamer Cascade, which is engaged in carrying stores to British Columbia lighthouses, returned on Sunday from the west coast after supplying Pecheno, Cape Beale and Carmanah point lights with coal and stores. During the voyage an accident occurred which almost resulted in four of the steamer's crew being lost. A boat's crew from the Cascade, formed by R. Jackson, James Wright, James Seward, and the Japanese cook, left the steamer to go into Port San Juan at 1:30 p. m. on Friday last. As the boat was crossing the bar it was swamped and capsized. The four men had a very narrow escape from drowning, being in the water for over twenty minutes clinging desperately to the upturned boat.

The sea was breaking on the bar at the time, and the first wave which struck the Cascade's boat filled her, the undertow then dragging the boat under and the next sea overturned her, rolling her over on her side. All four swam back to the upturned boat except Seward, who held to two oars and tried to work shoreward. He soon abandoned these and returned to the boat, and two on either side the four men clung there awaiting assistance. About twenty minutes after the accident two loggers put off with a dory and took off the drenched men. Capt. Kirkendale had in the meantime seen their predicament from the Cascade, and put out another boat which was hurrying to their assistance. The loggers rolled over the rescued men to the Cascade's boat and rowed away. The saved men are most thankful to the unknown rescuers who went away without making themselves known. They were taken on board the Cascade almost spent, but soon recovered and were no worse for their experience. Owing to the heavy swell running at Carmanah the steamer was unable to land more than five tons of coal there. The Cascade is now loading coal, lumber and other stores for the Gulf lights.

TWENTY-KNOT LINERS FOR AUSTRALIAN ROUTE

Lower Bid for Australian Connection via All-Red Route Offered by Shipping Firm

Sir Thomas Trowbridge and others are reported to be arranging a project for a fast steamship service between British Columbia ports in conjunction with the Union Steamship company, which has taken over the Canadian-Australian mail contract and operates the steamers Moana, Aorangi and Mowera in the Australian service. It is said the proposals now suggest that 25 knot boats on the Atlantic crossing to Halifax from Ireland in four days and for joint British and Canadian subsidies amounting to about \$1,750,000, as against \$2,500,000 required by the projected independent syndicate, with which the names of Lord Strathcona and Clifford Sifton are associated.

It is also said that the Australasian scheme will be formed by association with the Union Steamship company of New Zealand, which formerly held the mail contract in the San Francisco-Cor-Australasian route, is now operating boats between British Columbia ports and Sydney, and is now prepared to build 20 knot boats for the service to Australian from Vancouver and Victoria.

EXCITING HUNT FOR JAPANESE STOWAWAYS

Escaped From Detention in Steamer's Hospital and Hid in Bunkers and Lifeboats

An exciting stowaway hunt took place at William Head quarantine station soon after the arrival of the Nippon Yusen Kaisha liner Tango Maru, which reached the outer wharves yesterday morning. Four stowaways were discovered during the voyage without tickets or passports, but not without friends on board. They were made to work their way across the Pacific, and on arrival were locked up in the steamer's hospital on the poop.

Yesterday morning when the quarantine inspection was being held it was found that the prisoners had escaped. The hospital door was locked, and other than the outer wharves there seemed no way for the men to escape, but they had escaped. The search began at once. Every nook and cranny of the big steamer was searched, and three of the stowaways were located. One was hidden away behind an artfully arranged barrier of coal in one of the steamer's bunkers. Another was cuddled under the cover of the canvas of a boat hanging in the davits, the third was smuggled away below among the cargo.

The fourth could not be found, and had not been located when the steamer left yesterday afternoon for Seattle. By some it was thought he had jumped overboard and attempted to swim ashore; others thought he was securely hidden away by friends, who would await an opportunity to land him.

The steamer Queen City returned yesterday from Rivers Inlet and way ports.

The steamer Umattila left Seattle yesterday for Cape Nome with 1,400 tons of freight and the steamer Victoria, last of this season's steamer fleet for the northern camp, will leave the Sound today.

SHEARWATER BACK FROM BERING SEA

Boarded No Sealing Schooners During Season—Struck Uncharted Rock at Esquimalt

H. M. S. Shearwater returned to Esquimalt yesterday from Bering sea, where she has been engaged in patrolling the sealing grounds during the sealing season. The cruise of the warship this season was unprecedented in that she boarded no sealing schooners. The Victoria sealing fleet this season was smaller than ever, and as the vessel kept a considerable distance outside the sixty-mile zone about the Pribilof's none were spoken. At Dutch harbor it was learned that the schooners had smaller catches than usual, bad weather having interfered considerably with sealing.

News was brought by the Shearwater that owing to the proximity of the largely increased fleet of Japanese sealers, and the fear of a recurrence of the sealing raids of the past few years by Japanese sealers who hunt for within three miles of the islands, use firearms and otherwise pay no attention to any restrictions than the usual ones of international law, the United States government has placed four small quick-firing guns on St. Paul and two on St. George islands and increased the rookery guards for the purpose of protecting the seal herds in the event of an organized raid, such as was contemplated. Two Japanese sealers were seized this season by United States revenue cutters, both being within the three mile zone and seemingly with intent to make raids on the rookeries.

While at Dutch harbor on August 5, a fatal accident occurred on board the Shearwater. While the seamen were engaged in drill with one of the ship's guns equipped with Morris tube the gun was prematurely discharged and Hansey, an able seaman and diver, was shot in the stomach and died soon afterward. The funeral, which took place two days after the accident at Dutch harbor, was an impressive one, attended by the commanders and many men of three United States revenue cutters then in port, and with the archbishop of the Greek church, then visiting the district, conducting the ceremony.

From Dutch harbor the warship proceeded to Skagway, where Captain Allgood and some of the officers went into the hills on a hunting trip. On the way down the Lynn canal, while in Chatham straits, two deer were seen swimming toward the vessel, having seemingly been driven off the land by wolves. They were nearly spent and when a boat was lowered swam directly toward it and tried to clamber aboard. It is probable they will be presented to Beacon Hill park.

On reaching Esquimalt the Shearwater met with an accident. When rounding the point at the entrance to the harbor off the Bickford towed where the chart shows deep water close to the rock, the vessel struck a small pinnacle of rock and was fast with a falling tide. Soundings made forward, aft and at either side of the vessel showed deep water. The engines were put astern, but she failed to come off. The British Columbia Salvage Company's steamer Salvor came to her assistance and quickly towed her from the rock. The Shearwater will go into the dry dock this morning to be surveyed. It is not thought she is seriously injured.

The schooner Antelope was wrecked on Saturday at Tillamook, Oregon, after breaking away from a tug which was taking her to sea with lumber from San Francisco. The vessel drove ashore soon after the low tide parted, and will be a total loss, although part of the lumber may be saved. The crew reached shore in safety.

MOVEMENTS OF VESSELS

FIVE YEARS' HAY FEVER CURED
Don't leave home—don't experiment—just use Catarrhine. It cures every case as quickly as it did Thomas Eaton, of Westwood, Ont., who says: "Five years I suffered from Hay Fever and had to leave this part of the country a month previous to the time of attack. Since using Catarrhine I have not been bothered. My cure is complete."

For Sumner Catarrh, Asthma and Hay Fever, Catarrhine is guaranteed. Get it for \$1.00 from any dealer.

CHOICE BUILDING SITE FOR AN APARTMENT HOUSE

As a business proposition, an up-to-date apartment house pays handsome profits. In Victoria the absence of such a house is generally remarked and at the same time regretted by the numerous Eastern new-comers. I have the exclusive sale of

FIVE CHOICE LOTS

Centrally situated, within five minutes' walk of Post Office, and a like distance from Beacon Hill Park, where values are steadily increasing. The position cannot be equalled, and commands a clear view of mountains and sea. This is indeed the ideal location for a select apartment house.

Price \$7,000.00 Only

For Full Particulars apply A. W. Bridgman, 41 Government St.

Good Speculative Buys

We beg to call your attention to two excellent chances to make some money. The first mentioned below is splendid fruit land, with water frontage on Elk Lake. It is heavily timbered, contains very little rock, has frontage on old West Saanich Road and commands a beautiful view of the lake. At the price quoted it is one of the best opportunities ever offered in the city.

The second proposition is all good land of which there is about 25 acres cleared, the balance being heavily timbered. It is estimated there are 8,000 cords of wood on the property, which alone is worth the purchase price.

Elk Lake, 79 acres - - - - - \$75 per acre

West Saanich Road, 7 miles from P.O. 150 acres - \$50 per acre

3—SNAPS—3

We can personally recommend the following properties as being first class investments worth at least 30 per cent. more than the prices quoted.

A GOOD CHANCE FOR SPECULATION.

COOK STREET, near Yates, 5 room cottage, with bath and pantry, in first class repair. Will rent for \$17.00 per month. Price \$1,600.
HARRISON STREET, Cor. Pandora Ave. Two houses on extra large lot. Rent for \$27.00 per month. Price \$2,500.

BURNSIDE ROAD—5 1/2 acres, 4 miles from city hall, 4 acres cleared and under cultivation, 1/2 acre in bush, 1 acre rock, suitable for chicken run. A snap at \$1,650.

SEE OUR BRAEFoot AND BAYSWATER SUB-DIVISIONS

\$50—Per Acre—\$50

For quick sale we offer 50 acres of first-class land in South Saanich for \$2,500. This is the best of fruit land, free from rock, and only a mile from railway station. Adjoining land is held at double the price. Listed yesterday and should sell at once. Terms half cash, balance very easy.

Must Be Sold

New house on Government street, close to Park and Beach. Has hall, drawing-room, dining room, den, kitchen, pantries, three large bedrooms with clothes closets, large bath room, full sized basement, stone foundation. Lot is 50x150, with nice lawn, shrubs, etc. Price for immediate sale \$5,000.

A Sure Thing

For investment or for a home site, we have a number of fine lots on Cadboro Bay Road and Foul Bay Road at prices that ensure a good profit on the investment. \$200 down will secure one of these splendid lots, 50 ft. x 165 ft., having frontage on two streets. Beautiful location for a home. A sure thing as an investment. Make your savings bring you 25 per cent. instead of 3 per cent. You can do it on these lots.

NOTICE

COURT HOUSE, VANCOUVER

Sealed tenders, superscribed "Tender for the purchase of Court House and site, Vancouver, B. C." will be received by the Honorable the Chief Commissioner of Lands and Works up to noon of the 3rd day of September, 1907, for the purchase of the Court House and the site on which it stands, being the block bounded by Hastings, Hamilton, Pender and Cambie Streets, situated in the City of Vancouver, B. C., being the property of the Province of British Columbia, together with all fixtures therein, but exclusive of all movable furniture, carpets and linoleum, etc., and the steel filing cabinets of the Land Registry Office contained therein.

Each tender shall be accompanied by an accepted bank cheque on a chartered bank of Canada in a sum equal to one-third (1-3) of the price mentioned in the tender, which will be forfeited if the tenderer fails to complete the purchase in accordance with his tender and with the terms mentioned herein. The balance of the purchase sum shall be paid in two equal annual installments, with interest at the rate of 5 per cent, per annum on deferred payments. The interest, however, shall be charged until the purchaser is given possession of the property, which will be on or about the 1st day of December, 1907.

The highest or any tender not necessarily accepted.

F. C. GAMBLE,
Public Works Engineer,
Lands and Works Department,
Victoria, B. C., 2nd July, 1907. j57

The highest or any tender not necessarily accepted.

WM. W. NORTHCOOT,
Purchasing Agent,
City Hall, October 3rd, 1907.

NOTICE.

The Municipal Council of the Corporation of the City of Victoria having determined that it is desirable to construct and lay permanent sidewalks of concrete on the following streets, namely:

No. 1—Russell street, west side, from Esquimalt road to the waterfront.
No. 2—Queen's avenue, north side, from Richmond street to Douglas St.
No. 3—Cook street, east side, from Richardson street to Fairfield road.
No. 4—Rockland avenue, north side, from Cook street to Linden avenue.
No. 5—Burdette avenue, south side, from Blanchard avenue to Quadra St.
No. 6—Fairfield road, north side, from Oak Bay street to Linden avenue.
No. 7—Toronto street, south side, from Government street to Douglas St.
Also to grade and macadamise the following streets, namely:

No. 8—Fairfield avenue, from Queen's avenue to Bay street.
Also to flush existing boulevards with loam, seedling the trees and putting in water connections on the following streets, namely:

No. 9—Richmond avenue, both sides, from Oak Bay street to Cadboro Bay road (Fort street).
No. 10—Elford street, both sides, from Fort street to Pandora avenue.
No. 11—Elford street, south side, from Government street to Douglas St.
No. 12—Clarence street, both sides, from Niagara street to Simcoe street.
No. 13—South Turner street, both sides, from Simcoe street to Dallas road.
No. 14—Superior street, both sides, from Government street to Douglas St.
No. 15—Michigan street, south side, between Douglas street and Government street.
No. 16—Medana street, both sides, from Simcoe street to Niagara street.
Also to construct permanent sidewalks, with boulevards, curbs and gutters on, and to grade and macadamise the following streets, namely:

No. 17—Queen's street, from Bay street to Queen's avenue.
No. 18—Linden avenue, from Rockland avenue to Fairfield road.
Also to construct permanent sidewalks of concrete, with boulevard, complete, seeded down, trees planted, water connections laid, curb and gutter, including all boulevards, curbs and gutters on, and to grade and macadamise the following streets, namely:

No. 19—Burdette avenue, from Vancouver street to Quadra street.
And that each and every of the said works shall be carried out in accordance with the provisions of the Local Improvement General By-law, and the City Engineer and City Assessor, having regard to the amount chargeable in each case against the various works of real property benefited thereby, and their reports having been adopted by the council on the 22nd day of August last.

NOTICE IS HEREBY GIVEN that the reports in question are open for inspection in the office of the City Assessor, City Hall, Douglas street.

JAPANESE ON THE VANCOUVER RIOTS

Moderate Tone Adopted by the Press of Nippon in Its Comment

Japanese papers received yesterday by the Tango Maru comment moderately on the anti-Japanese outbreak at Vancouver. The Yomiuri says that the anti-oriental agitations of white races are chiefly accounted for by their interests, but in some measure to racial prejudice. Such incompatibility with the so-called faith of the Christian people, who make universal love their principle. The spiritual damage suffered by the white men from such outrages as have been perpetrated by them must be far greater than the physical damages inflicted on the Japanese. But blame lies with the Japanese proceeding to the United States or Canada. Among those people there are some gentlemen of high standing, as there may be others of a questionable character, who are branded in Japan as social delinquents. There can be no doubt that ill feeling is aroused amongst the white men by the questionable appearance and behavior of many of the Japanese emigrants, and this has created a cause for the anti-Japanese agitations, as can be seen from the fact that the Japanese are to be regarded on the same level as the Chinese and Koreans, and rejected indiscriminately. The presence in the United States or Canada of the Japanese laborers of lower classes may have been received by the Americans or Canadians with the same feeling as the Japanese saw the filthy Chinese coolies who were recently sent away from Kobe. "While censuring the violence on the part of the white men," concludes the Yomiuri, "we earnestly recommend the Japanese emigrants to preserve self-respect, that they may avert the ill feeling of the white men towards them."

The Japan Chronicle, printed at Kobe, says: "There can hardly be any doubt but that Japanese coolies have been arriving in British Columbia of late far too many at a time; and the only remedy, it seems to us, is to place some limit on their egress from Japan. The emigration agents in this country have been reaping a lucrative harvest of late, and it is well known that many young men are induced to leave the villages where they had hitherto gained a comfortable living, to make what they are assured will be their fortune in a foreign land. They frequently place themselves entirely in the hands of the emigration agents, and many of them do not know whether they are bound even when on the ship."

"There should—for the time being at any rate—be some limitation on the number of coolies sent from Japan to Canada, and the emigration agents should not be allowed to ship hundreds of coolies by every outgoing vessel, as at present. It is the arrival of these men in such enormous numbers that raises the ire of the white laborers, though, of course, that would never be held by the authorities to justify organized plunder such as has been reported from Vancouver. No objection has been raised in any country to the admission of Japanese of good standing. We believe the Japanese government fully realizes the difficult position in which the government of her ally finds itself in the present situation, and that the Japanese government will do its utmost to assist the Dominion government in meeting this difficulty. After all, Japan cannot afford to lose her best friends for the sake of a number of coolies, whose main idea is that by leaving their country—which is itself a poor one of their services—they will get rich quicker than by remaining at home."

HOW SOME JAPANESE SWINDLED EMIGRANTS

Took Money of Farmers and Shipped Them to Formosa—Stricter Examinations

News was brought by the Tango Maru of emigration frauds at Nagasaki by Japanese who defrauded a large number of farmers who sought to go to the United States. The Japanese emigration agents arrested by the Nagasaki police secured \$300 from each of the Japanese farmers who were embarked at Shinosaki for Formosa, being told they could enter at any United States port without restriction if they went from the latter place. As soon as the dupes left Shinosaki the agents decamped.

The newly appointed United States health officer at Kobe is causing consternation to Japanese emigration agents, owing to the severity of the examination of intending emigrants, the proportion passed by him being 30 of 100, instead of 80 per cent., as heretofore.

HEAVY FIGHTING IN SOUTHERN CHINA

Rebels Scale Walls of Kinchow But Fail to Capture the Large City

The steamer Tango Maru, which reached port yesterday morning, brought news of heavy fighting between the forces of the Kwangtung and Imperial troops. The city of Kinchow was saved only by the desperate defense made by its garrison. The insurgent forces again and again scaled the walls, and fought in the city gates, but after a fierce struggle the Imperial soldiery managed to repel the attacks.

Foreign missionaries in the affected district are taking refuge in the official yamens. The Peking government has called upon the local officials to use every effort to suppress the rebellion, fearing intervention upon the part of the French troops stationed in Annam.

Stomach troubles, Heart and Kidney ailments, can be quickly corrected with a prescription known to druggists everywhere as Dr. Shoop's Restorative. The prompt and surprising relief which this remedy immediately brings is entirely due to its Restorative action upon the controlling nerves of the Stomach, etc.

NOTICE IS HEREBY GIVEN for the information of intending settlers and others, that selection has been made of the 3,500,000 acres of land situated in the Peace River Valley, Province of British Columbia, granted to the Dominion Government under the provisions of Section 7 of "An Act relating to the Island Railway, the Graving Dock and Railway Lands of the Province," and such land is not open to entry under the Land Laws of the Province.

The block selected is described as follows: Commencing at a point 33 1/2 miles south of the Peace River on the 120th Meridian, being the Eastern boundary of the Province, thence West 75 miles and 35.64 chains, thence North 72 miles and 35.67 chains, thence East 75 miles and 35.64 chains, thence South to the point of commencement, following the 120th Meridian and containing approximately 3,500,000 acres.

NOTICE IS ALSO GIVEN that, with a view to facilitating settlement in the valleys of the Peace, Parnship and Pack Rivers, the following belt of land forty miles in width and extending 20 miles on each side of the Peace, Parnship and Pack Rivers has been reserved for actual settlement to be acquired by pre-emption only under the Land Act, such land not being open for sale, lease, license or other alienation under the said Act except by pre-emption.

Commencing at the intersection of the Western boundary of the block of land selected by the Dominion Government with the Peace River, thence following the Peace River and Parnship River to their confluence with the Pack River and thence following the Pack River to the point where said Pack River leaves Metlakel Lake, and extending for a distance of 20 miles on each side of said rivers and approximately 170 miles in length.

All lands outside the boundaries of the Dominion Government Grant and the reserve above described are open for location under the laws of the Province.

W. J. BOWSER,
Acting Chief Commissioner of Lands and Works,
Lands and Works Department, Victoria,

Trial Catarrh treatments are being mailed out free on request, by Dr. Shoop, Racine, Wis. These tests are proving to the people without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by Cyrus H. Bowers.

AN INTERESTING SALE OF TABLE LINENS TOMORROW

Free Lessons in Art Needlework

On the undermentioned days we are giving FREE LESSONS IN ART NEEDLEWORK, teaching all the latest and beautiful stitches, in all the newest embroidery styles of the season.

LADIES' CLASSES Tuesday Afternoons
CHILDREN'S CLASSES Saturday Mornings

Great Savings Await You

Tomorrow we place on sale a large assortment of HOUSEHOLD LINENS. This sale involves a very large purchase of seconds, the kind which are very much sought after by the retail trade, but owing to us being the largest purchasers, and buying such enormous quantities, we are able to control many of the surplus stocks, and get prices that no one else are able to get, which is a part of the secret why we can make such stirring offerings. This stock of linen seconds we will admit are not perfect, but inexperienced judges of linen would have difficulty in finding the defects. **Sale Starts Sharp at 8.30.** Be early, as goods are priced for rapid clearance.

Important to Out-of-Town Residents

REMEMBER—This store is just as near you as your nearest post office. Customers who are out of town can order by mail with every assurance of satisfaction. Mail orders are filled with as much care as though you were selecting the goods yourself. Satisfaction guaranteed in every way. A trial will convince you.

Rare Savings to Be Made in Men's Fancy Vests

Tomorrow opens with another round of rare savings in the Men's Department. About 50 Men's Fancy Vests go on sale at ridiculously low prices. These Vests have knitted back, with fancy fronts bound with braid, and are an exceptionally good offering.

The regular prices were \$2.50, \$2.75 and \$3.00, but to clear them out quick we have marked them down to the most enticing price of **\$1.90**

Special Sale of Dress Goods—Items Very Much Underpriced

This event means a great deal in the Dress Goods world. But do you realize what it means to you, and what makes it more interesting is that these offerings come at the very beginning of the fall season, and so much underpriced that you may save fully one-third or more below what such grades would ordinarily be marked.

Another Step Forward to Completeness

Having just completed the purchase of The Vacuum Cleaning Plant

We are therefore prepared to take orders for all kinds of cleaning work. This system is absolutely dustless, and is indeed a great boon to housecleaning, etc. When purchasing this plant we also obtained the exclusive control of this system for British Columbia. This new addition marks another most important step to making our Housefurnishing Department—or, in fact, every department pertaining to this line the most complete in the West.

Important Sale of Warmth Givers For the Little Folks

BOYS' SWEATERS, ALL SIZES, REG. 75c TO \$1.50. TOMORROW **50c**

Tomorrow we are offering a large number of Boys' Sweaters in all sizes, in English and German makes. This lot was a special purchase of surplus stock of the manufacturers, which enables us to make this special offering for tomorrow, at which you can make a saving of from one-third to one-half off regular prices.

These fine Sweaters are very closely knitted and are of splendid wearing qualities, in navy blue and blue, with fancy collars, etc. The regular price was 75c to \$1.50, but for tomorrow's selling we have brought the price down to, each **50c**

Fascinating Creations in Fall Millinery Very Modestly Priced

Leading lights of the millinery world would freely acknowledge these lovely hats as children of their genius. This comprehensive display of fascinating headgear includes a wonderful scope of ideas. Paris inspirations, American adaptations, which makes it a showing unequalled in the city. Large hats with over-towering plumes and aigrettes, immense flowers and giant ribbon bows are the leading styles and all most modestly priced.

In addition to these we call your special attention to the lovely but inexpensive hats designed by our own clever milliners, which include styles so wide that many choose the best here. Ready-to-wear Hats, ranging from \$7.00 to **\$2.50**
